- ❖ Science Experiments
- ❖ The Arts
- ❖ Fine Motor Activities
- ❖ Play Based Learning

Children develop in the context of their environments, which include family, culture, and community. The family plays the most critical role in a child's development. Our teachers respect the role of the child's family in the educational journey. Successful partnerships with families support and sustain common goals for children and connect families to their children's learning. By doing this, we can prepare your student for kindergarten.

Culver Community Elementary

401 School Street

Culver, IN 46511
