

Cassville Schools Pre-K Learning Menu

Week of May 11-15, 2020

Main Dishes (Pick 2 from each)

Literacy Skills

- 1. Alphabet race**-Lay out letter cards then shout out a letter and have your child run as fast as they can to find it and bring it to you.
- 2. Story go-round**- Make up a cooperative story by letting each person add one sentence. Start with characters and a simple plot."A dog and a cat went to the beach," and let the children take it from there. The sillier the better!
- 3. Bookmaking**- Fold paper in half and staple at the crease to make pages. Have your child tell a story as you write it down. After the story is written, go back and read it to your child so they can illustrate each page.
- 4. Sticky note letters**-Help your child write a few individual letters on sticky notes. Have them take a sticky note letter and go find something that starts with that letter and stick the note on it. To recollect the sticky notes, you can call a letter or make the letter sound and have your child go get that letter.

Colors and Shapes

- 1. Hidden colors**-Choose several different small containers. Have your child help you put a small amount of baking soda in each container, drop in a bit of food coloring, then cover it up with more baking soda so the food coloring can't be seen. Rearrange the cups then give your child a spray bottle or eye dropper filled with vinegar. Have them predict which color they think will be in each cup before squirting it with vinegar and watching the fizzy color come out.
- 2. Underwater shape finding**-draw different shapes on a plain white piece of paper. Set a clear 9 x 12 baking dish on top of the shape paper. Put enough water in to cover the bottom of the baking dish. Set a clear cup upside down in the baking dish. Call out a shape and have your child slide the clear cup through the water to cover the shape. Repeat by calling different shapes.
- 3. Pipe cleaner shapes**-say a shape and have your child build it using pipe cleaners.

Math

- 1. Math Scavenger Hunt**- Have your child follow these directions and write the number each time. Find 2 pencils and 1 blue crayon. How many do you have now? Find 5 blocks and 2 pennies. How many do you have now? Take away 3 blocks, how many items are left? Find 4 socks and 2 stuffed animals. How many items do you have all together? Find 3 spoons, 4 books, and 1 orange crayon. How many items do you have all together?
- 2. Practice writing numbers**.0-10 go even higher!
- 3. Give your child water and a paintbrush and call out numbers for them to paint on your driveway or sidewalk.**
- 4. Pipe cleaner numbers**-say a number and have your child build it using pipe cleaners.

S.T.E.M. Side Dishes (Pick 2)

Makerspace: [Stem activities you can do at home.](#)

1. What can you build using recycled materials?
2. Turn a piece of recycled paper into a drawing or a work of art.
3. Make your own puzzle by cutting a recycled picture from a magazine into pieces and put it back together.
4. Create your own board game using recycled materials.
5. What materials can be recycled in your home?
6. Make a volcano out of baking soda, vinegar and red food coloring.

Dessert (Pick 2)

www.splashmath.com

Choose 3 activities of your choice and complete.

ART

1. Draw a picture of what you are going to do this summer. Use several different colors.
2. Draw a picture of someplace you would like to visit.
3. Cloud dough-combine equal parts cornstarch and hair conditioner. Adjust the amounts as needed until a soft, pliable dough forms.

Music

Copy dancing- This game can be played with two or 20 players. One person dances while the others copy their moves. Kids love being the leaders.

Sing and play London Bridge is Falling Down with your family

Sing and play Ring Around the Rosie with your family

P.E

1. Animal walks- Walking like different animals. Can be a great way to work on motor and coordination.
2. Glow Stick Hide and Seek- Lower the blinds and turn off the lights in your child's room. Hide the glow stick and the fun begins.
3. Have your child practice balancing and walking on a tape line or a thin board.

Technology

Practice typing your name on a computer, tablet, or phone.

Library

Here is a great library of online books!
<https://www.uniteforliteracy.com/>

Storyplace.org is a great website that has a number of online stories and interactive activities for preschoolers and elementary-aged students.
[Welcome to StoryPlace!](#) | [StoryPlace](#)

Speech & Language

Print hunt! Find all 26 letters in your house! Once you find a letter, practice the sound that it makes. Look in your pantry, on your toys, on the cover of your movies, in your books, etc. HAVE FUN!

Flex Learning Activities

1. Inventor Scavenger Hunt-Find something you can turn. Find something that is bumpy. Find something that is metal. Find something you put together. Find 3 things that are round. Find something you twist. Find something that is shiny. Find something you can roll. Find a tube. Find 3 things that are squishy. Find something clear. Find something that you can bounce.
2. Bake a favorite recipe together.
3. Go on a walk and look for living things. How many can you find?

ABC CHART
