

Prep for Mathematics 7		Scope and Sequence
Unit	Lesson	Objectives
Diagnostic PreTest		
TEST		
Ratios and Rates		
Equivalent Ratios		
		Analyze patterns in a table of equivalent ratios.
		Find missing values in a table using ratio reasoning.
Understanding Unit Rates		
		Find unit rates.
Comparing Ratios		
		Compare ratios using different strategies.
Ratios in Real-World Situations		
		Compare ratios in real-world contexts.
Plotting Equivalent Ratios		
		Plot tables of equivalent ratios on the coordinate plane.
		Identify patterns of plots of equivalent ratios.
Analyzing Equivalent Ratios in the Coordinate Plane		
		Analyze the graph of equivalent ratios plotted on the coordinate plane.
		Use the language of ratios to explain the graph of equivalent ratios in real-world contexts.
Rational Numbers and Integers		
Finding a Rule for Dividing Fractions		
		Use the standard algorithm to divide fractions.

Prep for Mathematics 7		Scope and Sequence
Unit	Lesson	Objectives
	Fraction Multiplication and Division	
		Solve real-world problems using fraction multiplication or division.
	Understanding Percent	
		Represent a portion of a set with a ratio.
		Translate ratios of part: whole and part/whole as percents.
		Use models to illustrate the meaning of percents.
		Compare ratios and percents of sets with different base units.
	Fraction-Decimal-Percent Equivalents	
		Find equivalent forms of fractions, decimals, and percents.
	Using Equivalent Ratios to Find Percents	
		Represent percent problems using equivalent ratios.
		Use patterns in equivalent ratios to find the percent of a whole.
	Negative Numbers in Real-World Contexts	
		Use positive and negative numbers to represent quantities in real-world contexts.
		Describe the meaning of zero in real-world contexts.
	Integers on the Number Line	
		Identify integers.
		Graph integers on number lines.
		Find the opposite of an integer.
Expressions		
	Expressions with More Than One Operation	

Prep for Mathematics 7		Scope and Sequence
Unit	Lesson	Objectives
		Write algebraic expressions containing more than one operation.
		Use the order of operations to evaluate algebraic expressions containing more than one operation.
	Expressions with and without Parentheses	
		Write algebraic expressions containing more than one operation, with and without parentheses.
		Use the order of operations to evaluate algebraic expressions containing more than one operation, with and without parentheses.
	Equivalent Expressions	
		Generate equivalent expressions using the commutative and associative properties.
		Use substitution to determine if two expressions are equivalent.
	Equivalent Expressions and the Distributive Property	
		Generate equivalent expressions using the distributive property.
		Use substitution to determine if two expressions are equivalent.
Equations and Inequalities		
	Writing Equations to Find Unknowns	
		Differentiate between expressions and equations.
		Translate simple word problems into one-step equations.
		Use substitution to determine whether a given number is a solution of a one-step equation.
	Solving One-Step Equations: Addition and Subtraction	
		Write and solve one-step addition equations.
		Write and solve one-step subtraction equations.
	Solving One-Step Equations: Multiplication and Division	

Prep for Mathematics 7		Scope and Sequence
Unit	Lesson	Objectives
Modeling Real-World Problems with One-Step Equations		Write and solve one-step multiplication equations.
		Write and solve one-step division equations.
		Write and solve one-step variable equations modeling real-world contexts involving addition, subtraction, multiplication, and division of nonnegative rational numbers.
Writing Inequalities		Write an inequality to represent a constraint or condition in a real-world or mathematical problem.
		Describe the set of numbers that make the inequality true.
		Write real-world scenarios given one-step inequalities.
Data and Geometry		
Summarizing Data Sets with Statistics		Find the mean, median, range, and interquartile range of a data set.
		Compare two data sets with the same measure of center but different measures of spread.
Area of Parallelograms		Use the formula $A = bh$ to find the area of a parallelogram.
		Solve real-world problems involving the area of parallelograms.
Area of Triangles		Calculate the area of triangles using the formula $A = \frac{1}{2}bh$.
		Solve real-world problems involving the area of triangles.
