# Principles of Design: Option #2

The Principles of Design are how the artist organizes the Elements of Art to create a complex and meaningful work of art.

1. Watch the video
Photo 101: The Principles of Design
https://mopa.org/educate/a-matter-of-principle-introduction-to-principles-of-design/

2. Match the word with the definition:

1) Proportion

2) Rhythm(Pattern)

3) Movement

4) Balance

5) Variety

6) Emphasis

A) The part of the image your eye is drawn to first.

B) The weight of various elements throughout the scene.

C) Depth and scale using relative size.

D) The direction our eyes wander through a scene.

E) Repetitive organised movement.

F) The use of various elements within the same image.

Write the number and letter that match when you submit your answers in Schoology.
