EAD & VISUALIZE THE PROBLEM!

Reread if necessary.

- -What picture comes to mind when I read the "math story" or Problem?
- How might I represent what I am thinking using pictures, diagrams, or models?

raw or Model the Math in the

"Math Story" and label!

Thinking About MY Thinking:

- -How can I r<u>epresent</u> the Problem with pictures?
- -How can I model this Problem?
- -What can I tell from looking at my drawing or model?
- -Does my drawing & model match the

problem? Do I understand the "story"?

Eureka R-D-W Problem Solving Model, Modified by Kelli Rivas & Melisa Hancock, 2017

Does my Number sentence match my Representation (picture &/or model) and the "story" in the Problem?
Have I restated the question to the Problem?
Can I explain my Thinking?
