

Name: \_\_\_\_\_

# Climate Region Poster Project

Due date: Nov 13<sup>th</sup>

**Assignment:** Create a colorful and informative poster on your chosen climate:

\_\_\_\_\_.

***First Step:*** List at least two countries/cities that have your climate here. If possible, list countries from different continents:

1) \_\_\_\_\_ 2) \_\_\_\_\_

**Your poster should include:**

- 1) An eye-catching **title!**
- 2) At least 5 **photos and/or drawings** showing scenes of your climate area (such as vegetation, wildlife, activities/housing/clothing of people in this climate, etc.) Variety is good! As often as possible, **use photos from different countries** that have this climate (i.e. for Mediterranean climate, include photos from California, Spain, Italy, etc.)
- 3) **Captions** for all drawings or photos describing *where or what the illustration is and how it is related to the climate*. As always, please use complete sentences! Be sure to proofread for correct spelling. Your caption should also include the web address where you found it. (See example on “Useful Resources” handout.)
- 4) Two **hand-drawn climographs** of locations within your climate zone. Remember to complete the information at the bottom of each climograph page, as well. (Please note: your climographs do not have to be from the same places described in your photo captions. Also, the data charts you created to make your graphs do NOT have to be on your poster.)
- 5) A **World Climate Map** showing where your climate type is found. Color each region of the map handout and *be sure that your climate region stands out!* You may also use the map linked to the webpage as a guide. All maps should be colored neatly, in colored pencil, and include a color coding key at the bottom.
- 6) A **descriptive paragraph:** Use the “At A Glance” template provided to give a brief overview of basic statistics about your climate region. You should also have a paragraph that describes your climate in more detail, including information about temperature, precipitation, vegetation, and parts of the world that have your climate. See example for details.

# Climate Region Poster Project Grading Rubric:

## 1. TITLE (4 points) \_\_\_\_\_

- ☐ Is your title *clearly labeled* and *neatly written*?

## 2. PHOTOS, DRAWINGS, AND CAPTIONS (16 points) \_\_\_\_\_

- ☐ Do you have at least **5** photos or drawings of your climate type?
- ☐ Do they show this climate in several *different countries or regions* (if applicable)?
- ☐ Do your captions describe *where or what the illustration is* and *how it is related to the climate*?
- ☐ Are your captions written in complete sentences with correct spelling and punctuation? Have you included the websites where you found them?

## 3. CLIMOGRAPH (12 points total) \_\_\_\_\_

- ☐ Do you have **two** climographs from a within your climate zone?
- ☐ Is each of your climographs *properly titled* and *accurately labeled*?
- ☐ Is each of your climographs drawn and colored *neatly*?

## 4. WORLD CLIMATE MAP (12 points) \_\_\_\_\_

- ☐ Is your climate map *completed* and *properly labeled*?
- ☐ Colored *neatly* with *colored pencils*?
- ☐ Is your climate type *identified on the map* so that it stands out?

## 5. CLIMATE SUMMARY 12 points) \_\_\_\_\_

- ☐ Have you included your “Climate at a Glance” data? Is it complete?
- ☐ Is your summary paragraph *typed, descriptive, accurate* and *written in complete sentences*?
- ☐ Does it include information about temperature, precipitation, vegetation, and the areas of the world that have this type of climate? (See example on “Useful Resources” handout.)

## 6. EFFORT, RESEARCH, AND PRESENTATION (8 points) \_\_\_\_\_

- ☐ Does your poster show that you put time and effort into creating it?  
(Ex: Is it neat, legible, and easy to read? Creatively assembled and laid out?)
- ☐ Is it obvious that you researched your topic carefully and thoroughly?

**FINAL  
GRADE:**

**Your total points earned:**

**Total points possible:**

\_\_\_\_\_  
**64**
