

PROPERTY OF WATER CAMPAIGN POSTER

In keeping with the political season and current events you will create a campaign/election poster providing information about your assigned property of water and telling others why they should "vote" for your property as the most important of all the properties.

Your poster should include:

- a PARTY PLATFORM listing what key biological processes your property impacts
- colorful pictures/images/drawings showing what your property can do
- possible consequences if your property is not chosen
- A little trash talk about "other properties" is OK 😊
- BE CREATIVE but FACTUAL.

Posters should be completed and ready to present to the class on FRIDAY 9/7.

SP 6.1 The student can justify claims with evidence
