

## PROPERTY OF WATER CAMPAIGN POSTER

Create a poster providing information about your assigned property of water and telling others why it is important of all the properties.

Your poster should include:

- A "catchy campaign slogan"
- A description of your property
- What is it about the structure of water molecules that produces this property?
- What key biological processes does your property impact
- Possible consequences if your property did not "do its thing"
- Include: colorful pictures/images/drawings showing what your property can do
- BE CREATIVE but FACTUAL.
- No spelling/grammar errors
- Bibliography for info and images used

Posters should be completed and ready to present to the class on MONDAY 9/11
