2. On the following page, click on the "I have an Activation Key..." link.
3. Click that you agree to the privacy statement.
4. In the next screen enter the first name, last name and activation key exactly as it appears below. Then click on the "Continue to Step 3" button.
5. The system will prompt you to select your own username and password. The password must have a minimum of 6 characters, and can consist of numbers and letters.
6. Also enter your primary e-mail address. This address will be used to recover your password if you lose it.
7. Click on Complete Account Activation to finish setting up the account.

Once you have activated your account on a computer, you can download the ParentVUE app and access your account from a mobile device. Once you open the mobile app, you will be prompted to select the proper school district (David Douglas) based on your location. Or you can enter the URL manually:
