

Rekenrek

Counting *All*/Counting *On*

For each progression, ask:

- A. What do you see? How do you see it?
- B. How is this one similar/different to the one before?

String 1

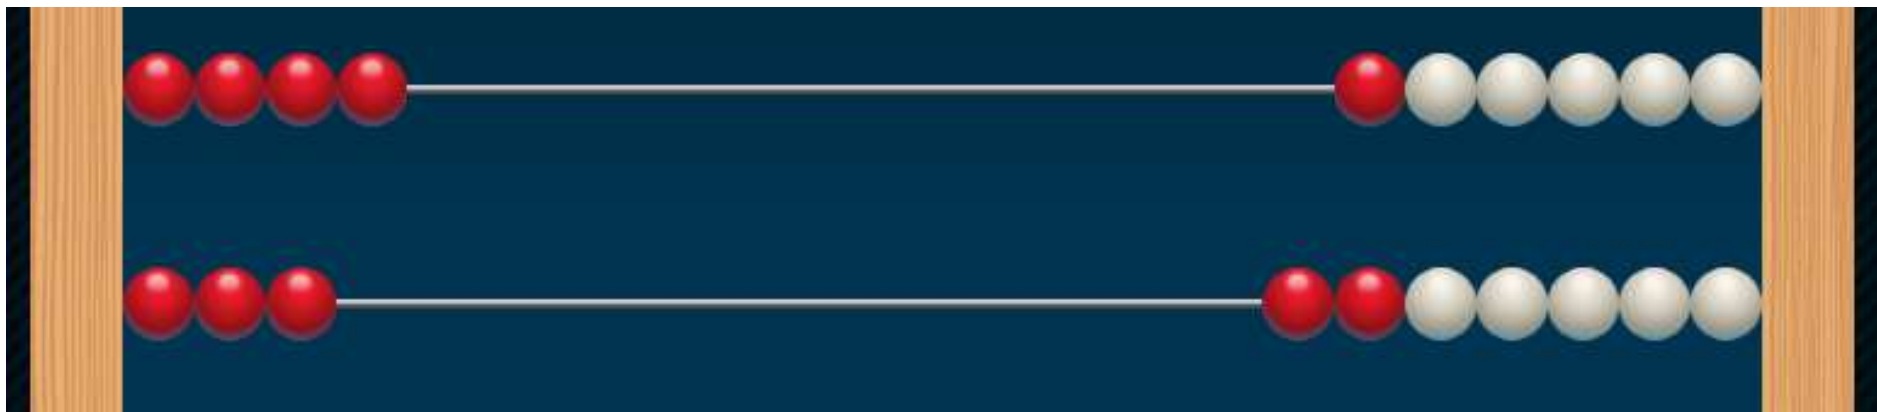

We always look at the left side of the rekenrek:

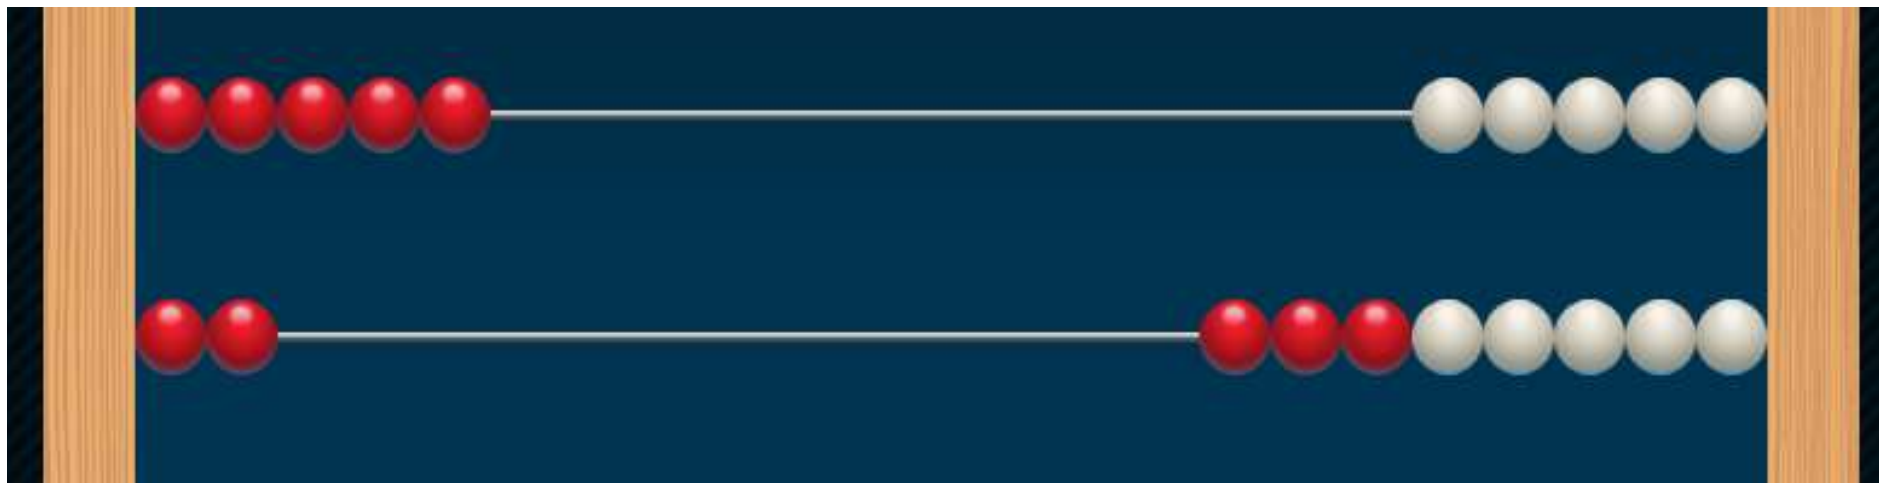

For each progression, ask:

- A. What do you see? How do you see it?
- B. How is this one similar/different to the one before?

A

B

C

String 2

We always look at the left side of the rekenrek:

For each progression, ask:

- A. What do you see? How do you see it?
- B. How is this one similar/different to the one before?

A

B

C

String 3

We always look at the left side of the rekenrek:

For each progression, ask:

- A. What do you see? How do you see it?
- B. How is this one similar/different to the one before?

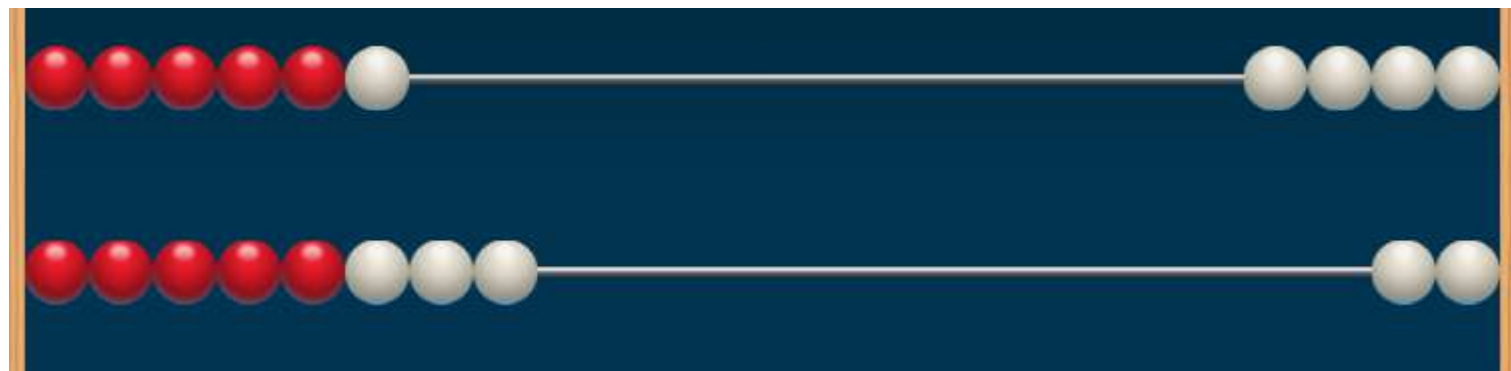

A

B

C

String 4

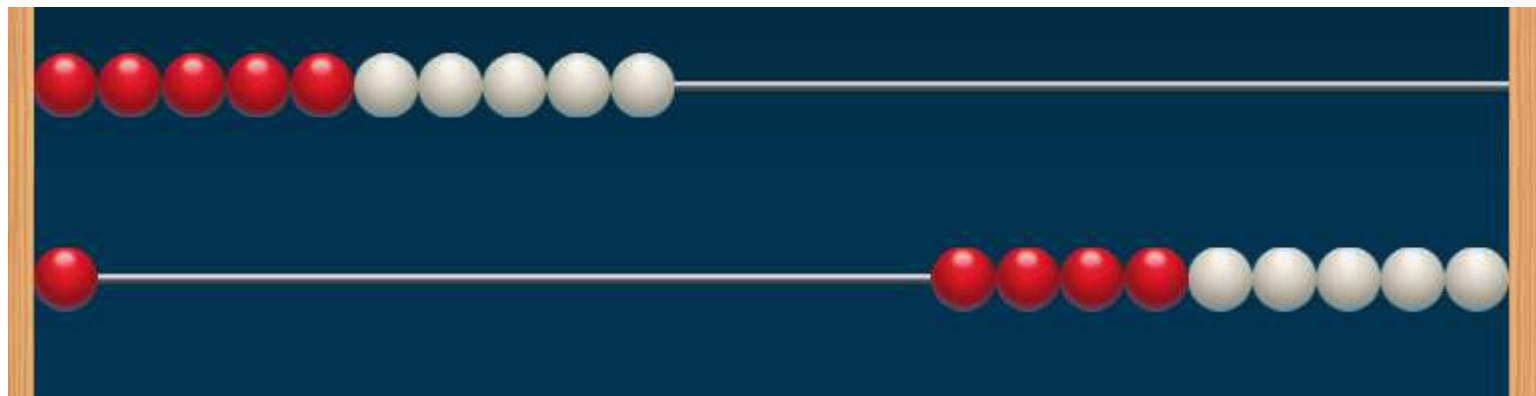

We always look at the left side of the rekenrek:

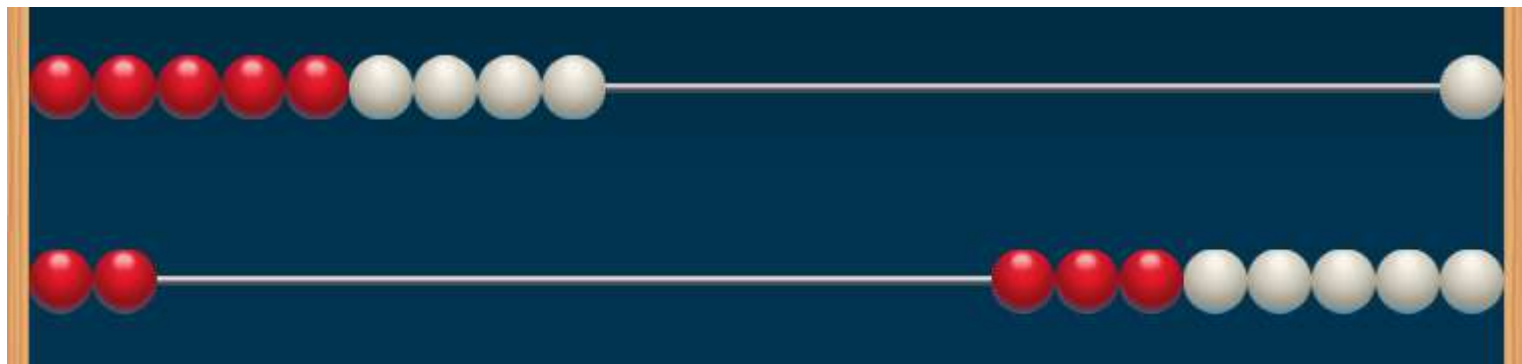

For each progression, ask:

- A. What do you see? How do you see it?
- B. How is this one similar/different to the one before?

A

B

C

String 5

We always look at the left side of the rekenrek:

For each progression, ask:

- A. What do you see? How do you see it?
- B. How is this one similar/different to the one before?

A

B

C

String 6

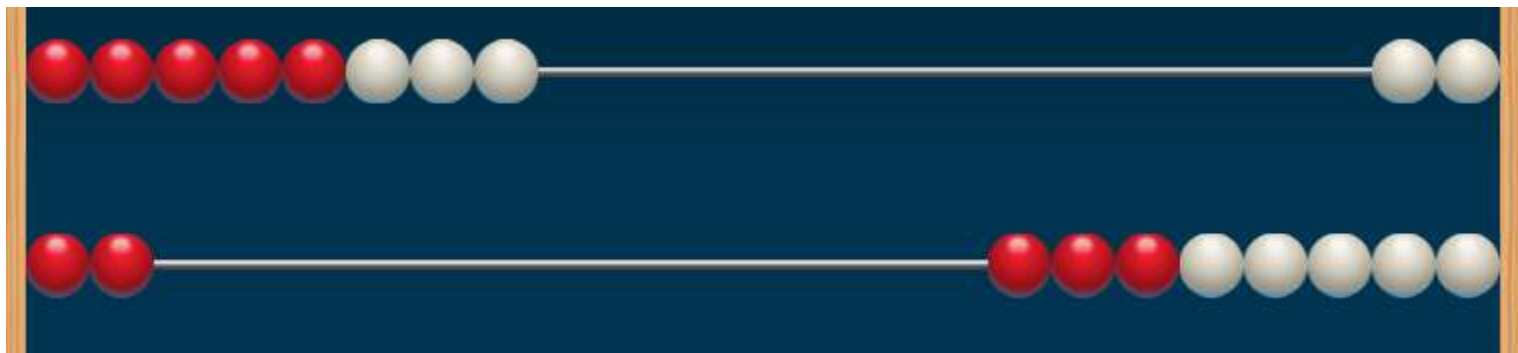

We always look at the left side of the rekenrek:

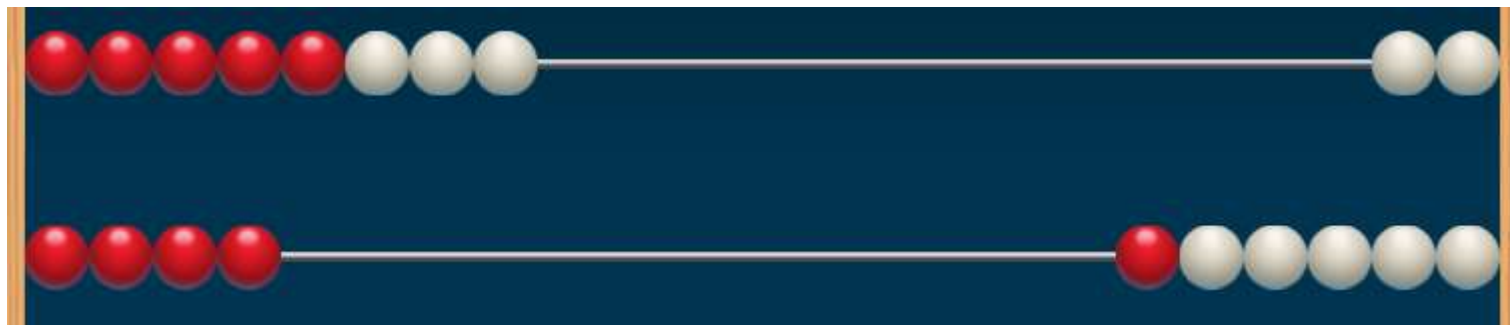

For each progression, ask:

- A. What do you see? How do you see it?
- B. How is this one similar/different to the one before?

A

B

C

String 7

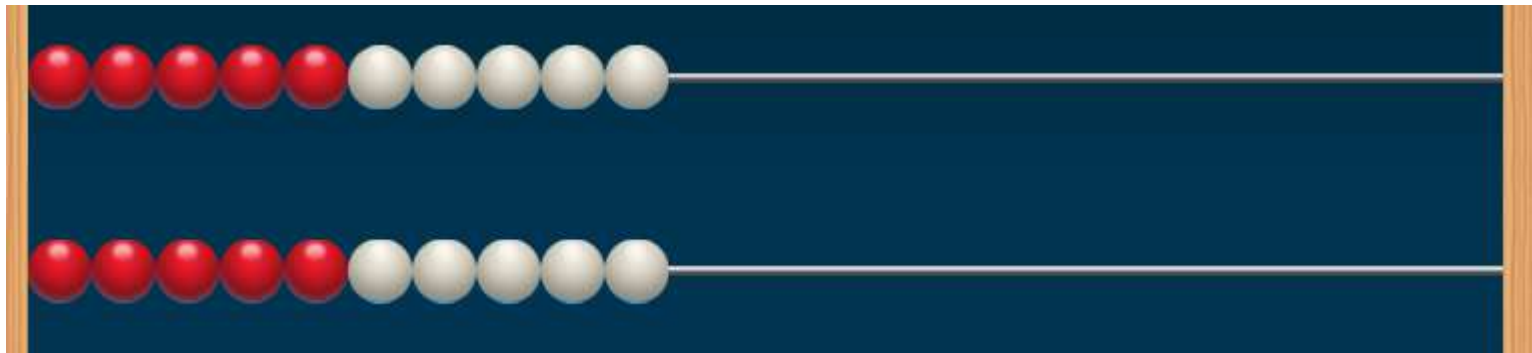

We always look at the left side of the rekenrek:

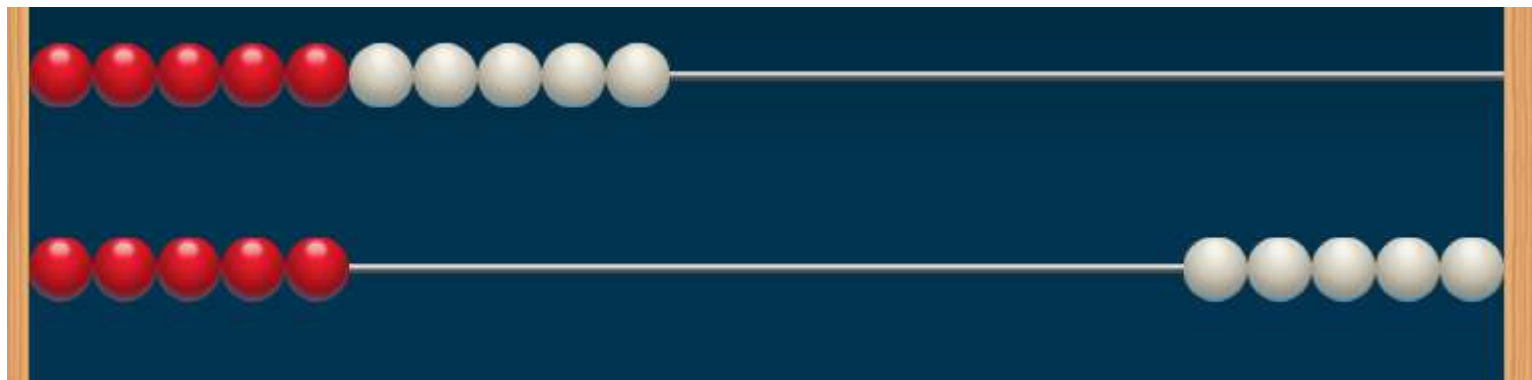

For each progression, ask:

- A. What do you see? How do you see it?
- B. How is this one similar/different to the one before?

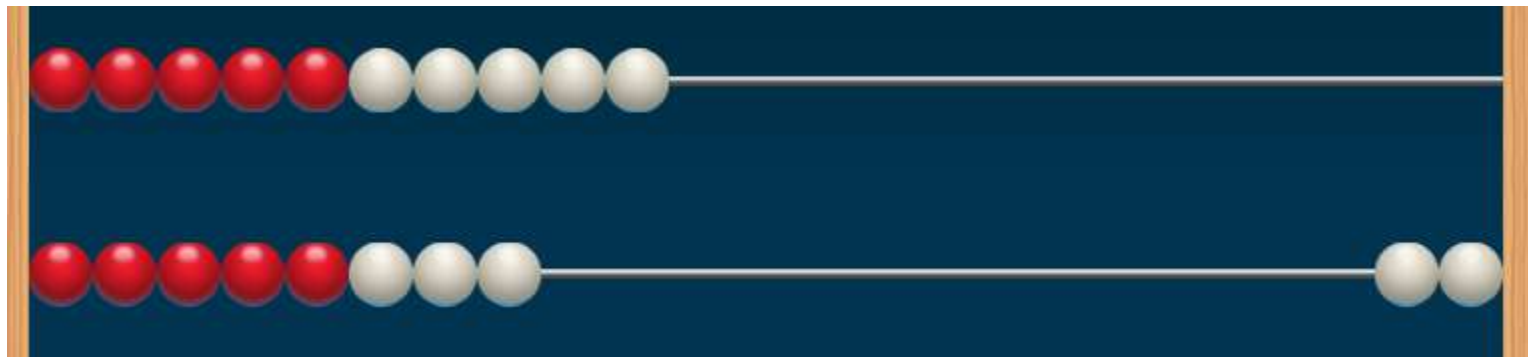

A

B

C

String 8

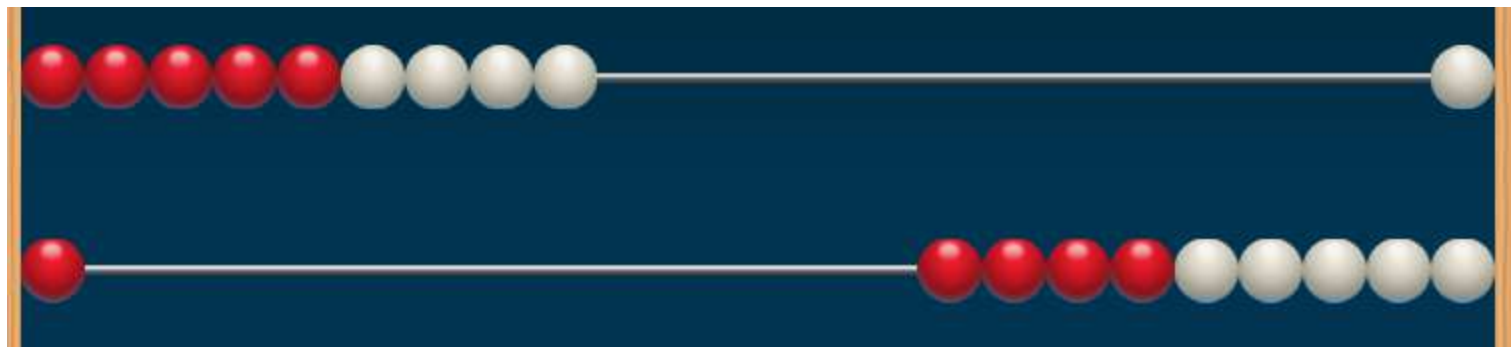

We always look at the left side of the rekenrek:

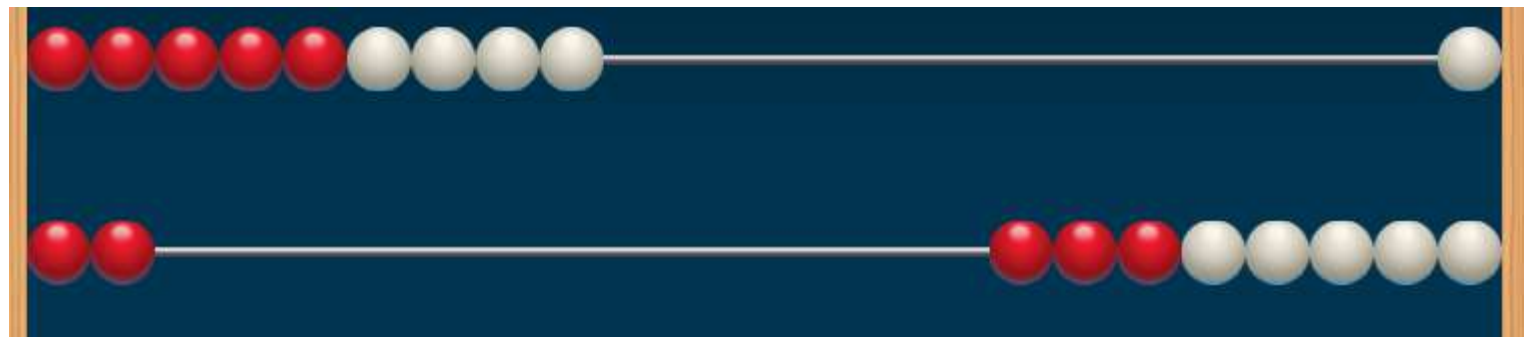

For each progression, ask:

- A. What do you see? How do you see it?
- B. How is this one similar/different to the one before?

A

B

C

String 9

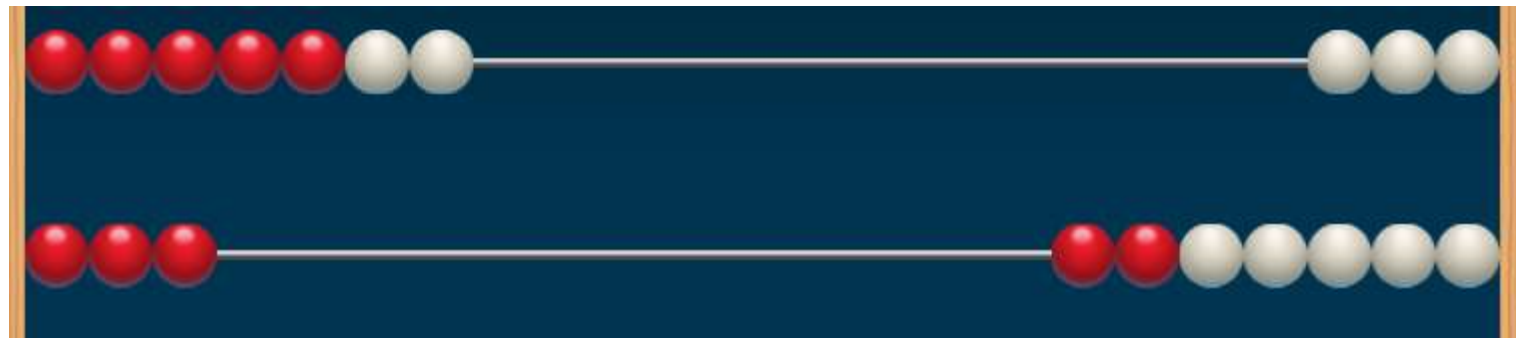

We always look at the left side of the rekenrek:

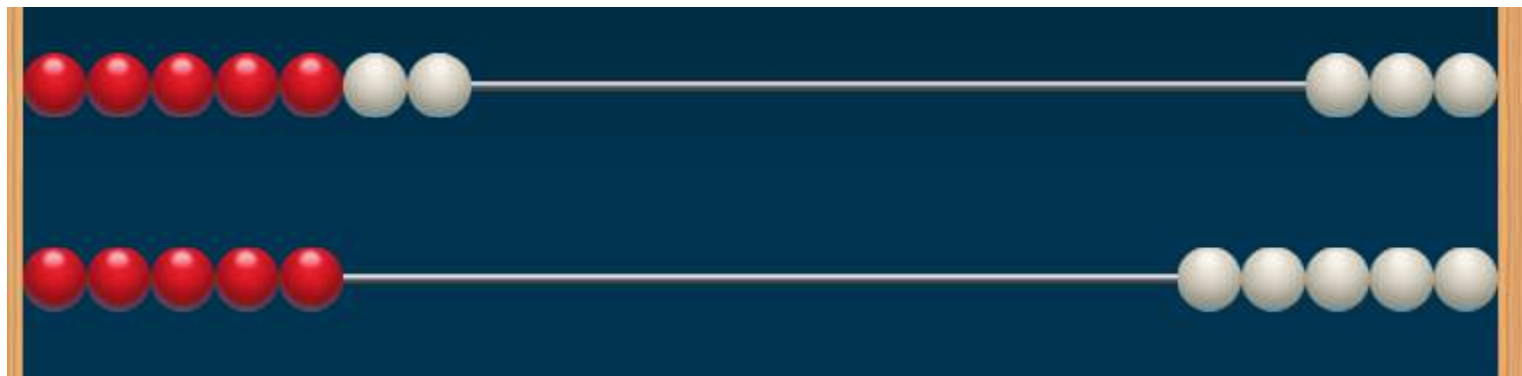

For each progression, ask:

- A. What do you see? How do you see it?
- B. How is this one similar/different to the one before?

A

B

C
