1. At the logon screen; click Create a Password Reset Disk.

The Specops Password Reset window will open.
Enter your user name (firstname.lastname) and click Next.

- 3. Answer your three security questions.
- 4. Then you will be prompted to enter:
 - a. Your New Password
 - i. Must contain at least 8 characters
 - ii. Must not repeat any of your previous 3 passwords.
 - b. Confirm your New Password by typing it again.

- 5. Click Finish.
- 6. Commit your password to memory.
 - Now might be a good time to reset your security questions, in case you forget the new password.
 - Click on START → All Apps → Click SpecOps Software in the list → click on Enroll for Password Reset
 - Follow the screen prompts
 - This is not required but recommended if you are unable to answer the security questions you originally selected.
