

Restaurant Web Site Project

1. Create a website for your restaurant using Google Sites.
 - a. Create a new web site exclusively for this project named after your restaurant
 - b. Be sure to create it in or move it to your Comp. Apps. Final Folder on the Google Drive
2. Make a site for the restaurant consisting of:
 - a. 1 main (Home) page
 - i. Include the name, address, and phone number for the business
 - ii. The restaurant logo that you created
 - iii. Include at least 2 additional pictures and/or graphics related to the business
 - iv. Create a heading graphic using Adobe Photoshop (dimensions will be provided by Mrs. Gallman-St.George)
 - v. Create an animation for the main page using Adobe Photoshop
 1. The animation must have at least 10 frames
 2. It can be text, graphics, or a combination of both
 - b. 2 secondary pages (topics should be specific to the restaurant business)
 - i. Secondary pages must coordinate with the main page and all main graphics should match in font, color, and style
 - ii. Content should include:
 1. Your restaurant's menu
 2. Your Google Slide presentation about your restaurant
 3. Your spreadsheet with your restaurant sales and related charts
 - c. Select vertical navigation for the site
