Special Needs

Safety is our #1 priority

BEFORE HIRE: Exhaustive pre-hire vetting (FBI & BCI background checks, sex offender & abuse/neglect registry checks, past employment verification, reference checks)

PROCEDURES: Every procedure (check-in/out, attendance, transitions) is focused on ensuring student safety

PARTNERSHIP: We partner closely with District on school safety procedures (emergency plans, lock-down drills, etc.) and communicate proactively

PRACTICE: Our Managers focus continuously on safety (live training, drills, quality checks)

Right At School Helps Students Navigate The New Normal

Efforts are in place to ensure student safety

Ratio is currently 1:9 per ODJFS guidelines during a pandemic but is normally 1:18. Additionally, the same staff will be with the same kids each day.

All frequently touched surfaces (door handles, chairs, tables etc.) are sanitized hourly and as needed.

Staff & children's hands are washed hourly and as needed in between (after bathroom, before eating, coming inside from outside).

Sanitizer provided for anytime needed or when hand washing is not immediately available.

Children and staff will complete a health assessment and have their temperature checked before entering program every day.

No one is permitted to enter program premises other than employees and children participating in program. Parent pick up has been modified as follows:

Pick up: Parents will call program phone to inform staff they are picking up their child. Staff will walk child to parking lot and verify the person picking up is an authorized person.

Physical distancing has been implemented in each of our programs as per CDC guidelines.
