*Activity 1:*

In *Xochitl and the Flowers*, Xochitl has happy memories of El Salvador. Write a few paragraphs telling how Xochitl's memories of El Salvador comfort her now that she lives in the United States.

OR

In *Xochitl and the Flowers*, Xochitl and her family are so excited when they rent an apartment that has a yard in the back. Write a few paragraphs to explain in detail how the Flores family's new backyard comes to life.

*Activity 2:*

Through *Xochitl and the Flowers* we see examples of community beautification and community organization. Make believe you were in the backyard when Don Roberto told the Flores family he would report them to the authorities because they had a flower shop in their backyard. Write a letter to the Planning Commission at City Hall explaining to the committee why you believe the Flores family should or should not be able to keep their flower shop. [Reminder: A Planning Commission is a group of citizens that serve the city. They make decisions on issues that have to do with community development and how people use land.]

OR

Create a colorful, creative brochure for the Flores family's flower shop. In the brochure list all of the types of flowers that are sold at the shop. Include a description and a picture of each flower. Also include the types of flower arrangements that are offered at the shop. Remember, on pages 4 and 5, Xochitl thinks about the types of flower arrangements her family created when they lived in El Salvador. Include pictures and write descriptions of the flower arrangements, too. You can draw and color your flowers or print them out. Either way, make your work colorful and creative so people will want to buy flowers from the Flores family!

*Activity 3:*

Beautify your neighborhood like Xochitl and her family did! Create beautiful paper flowers and place them around your home or neighborhood. You can even give some as gifts. Write a letter to Xochitl telling her how you beautified your neighborhood and how it made you and the community feel. Click here to see how you can create amazing paper flowers!
