## Roper Mountain Science Center's Friday Starry Nights

Now Showing in the Giant Dome Theater & Planetarium

Join us for a  
night under  
the stars!

A ticket for each showtime includes

### • "Upstate's Sky Tonight"

Learn what's happening in tonight's sky including: planets, constellations, moon phases and special celestial events. 15 minute presentation included in each showtime.

### • Feature Shows:

7:00pm "Magic Tree House  
Space Mission"  
8:30pm "Solar Superstorms"

### • Ice Slide Virtual Rollercoaster

### • Viewing at the Daniel Observatory (weather permitting)

After enjoying the Planetarium, join our Astronomers in the Daniel Observatory for a spectacular view through the 23 inch refractor telescope. Built in 1882 for Princeton University and used for astronomical research until 1964, this historic telescope is the 8th largest refractor in North America.

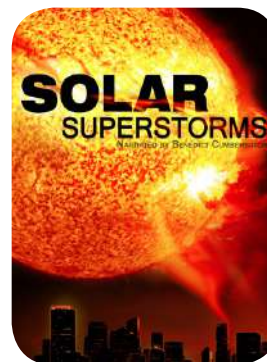

Begin in the 50' giant dome as we immerse you in the latest full-dome movie with 360° views and dynamic sound.

### Feature Show: 7:00pm "Magic Tree House Space Mission"

Follow Jack and Annie on an exciting adventure as they meet a helpful astronomer and an astronaut. As they travel to an observatory and take a fun-filled journey to discover the secrets of the universe, Jack and Annie nearly get... well, we don't want to give the surprise away!

*Recommended for all ages.*

### Feature Show: 8:30pm "Solar Superstorms"

A fury is building on the surface of the Sun – high-velocity jets, a fiery tsunami wave that reaches 100,000 kilometers high, rising loops of electrified gas. What's driving these strange phenomena? How will they affect planet Earth? Find the answers as we venture into the seething interior of our star.

*Narrated by Benedict Cumberbatch*

*Recommended for ages 10 - adult.*
