

— Here's how it works —

Call 1-877-ASK-ROSE or visit www.AskRose.org

1 The student gathers materials for the call: homework assignment, textbook, pencil or pen, paper and calculator, if needed.

2 The student calls the Homework Hotline at 1-877-ASK-ROSE (1-877-275-7673). A friendly tutor greets the caller and reviews the problem.

3 The tutor pulls the student's textbook from the Homework Hotline's library.

4 The tutor guides the student through the problem until the "AHA!" moment happens.

— Average call lasts about 10 minutes —

About the Homework Hotline

Rose-Hulman Institute of Technology's Homework Hotline is a FREE math and science tutoring service for Indiana students in grades 6–12. Students can call toll free at 1-877-ASK-ROSE (1-877-275-7673) to speak with a tutor.

Students may also submit questions on the Homework Hotline website, www.AskRose.org, via email or real-time chat. Emailed questions are answered during the Hotline's hours of operation. The website also offers many educator and student resources, including study guides for a wide range of math and science subjects.

How a call works

Tutors guide students through homework problems to help them better understand math and science concepts. Rather than giving answers, tutors help students analyze homework problems and prepare for answering similar questions on their own. Tutors can help with basic and advanced math and science subjects and have copies of current, state-adopted math and science textbooks.

About our tutors

Tutors are Rose-Hulman students recommended by faculty. Before answering a single call, they complete a training program to learn how to use their experience to help younger students by phone and online.

- Tutors cover math and science subjects from the sixth-grade level all the way through calculus and advanced physics.
- All tutors major in math, science or engineering degree programs.
- Tutors are certified by the National Tutoring Association.

Rose-Hulman

Rose-Hulman Institute of Technology is a private, fully accredited engineering and science college located in Terre Haute, Ind. For the 13th consecutive year, *U.S. News & World Report's* survey of higher education lists Rose-Hulman as the #1 engineering institution whose highest degree is a bachelor's or master's.

Rose-Hulman Institute of Technology and Lilly Endowment Inc. support the Homework Hotline as financial sponsors.
