

Rube Goldberg Pre-Construction Approval

Before you build your device:

- 1) Preliminary sketch of device
- 2) Include approx. METRIC measurements of your device
 - a) these can be overall height, width, depth
- 3) List of transfers/conversions
 - a) Types of energy - think beyond GPE and KE to earn max points
 - b) Objects involved - more unique objects means max points
- 4) Who in the group is bringing in which supplies
