

Marketing Bell Ringers

Instructions & Information

What is a Bell Ringer? Bell ringers are prompts that you can display at the start of class while your students filter in, allowing you to attend to administrative tasks, such as taking attendance or addressing student questions. They serve as a means to engage your class, and focus their minds on topics relevant to your course.

Items included in Sample:

- 15 Bell Ringer Prompts in PDF
- Student response form in PDF

***** Full version with purchase includes 85+ prompts, fully editable content and teacher response tracking sheet***

How to use:

1. Before class begins, select a prompt, and display it at the front of the class or post it to your Learning Management System (LMS) where all students can access it.
2. Allocate 5-10 minutes for students to respond to the prompt in a format that suits you. This can be done physically in notebooks, on the provided response form, or digitally through your LMS.
3. Once everyone has settled into class, initiate a class discussion based on their responses to the prompt.
4. Optional: Grading/Tracking of responses. Bell Ringers are designed as formative assessments and can be graded based on completion or used for bonus points at the end of the semester.
