

DYSLEXIA AND STRUCTURED LITERACY INSTRUCTION

These classes are funded by OSPI ELA and Special Education and are created in collaboration with partners from OSPI and the State's Regional Literacy Coordinators.

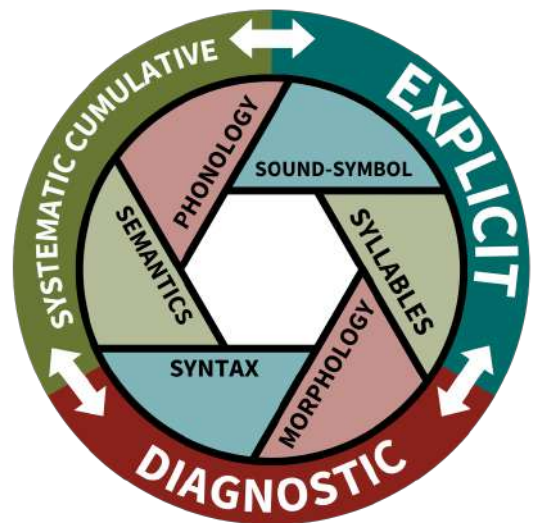

DO YOU NEED SUPPORT?

School districts must use evidence-based, multi-tiered systems of support to help students in kindergarten through 2nd grade who show indicators of, or weaknesses associated with, dyslexia.

*Educators who provide this support **must** be trained in methods that target students' identified needs.*

WE CAN HELP!

Effective reading instruction is at the core of our practice and training. Our professional learning opportunities will lead you through the foundational elements of literacy, including phonology, orthography, etymology, morphology, syntax, and semantics. We also offer trainings and host professional learning communities focused on teaching principles and strategies for supporting student growth
