**Unless your child is sick, please make sure he/she is present at school during testing.** Students who miss the scheduled test will be given a make-up test. Children generally perform better when taking tests with their peers/classmates. Here are some tips that will help your child do his/her best on the tests.

- Get your child to school on time each day of testing. Children need to be in their classrooms by 7:45.
- Make sure your child gets a good night sleep before the test.
- Make sure your child eats a good breakfast the day of the test.
- Remind your child that the test is important. Encourage them to do their best.
- Wish your child good luck each morning of the test.
- If your child is too ill to attend, please call the school office at 803-985-2255.
- Encourage your child to stay focused on the test even if other students finish early.
- Remind your child to leave **ALL** electronic devices at home the day of testing – any electronic device brought to school will be turned off and secured in a locked cabinet or closet until after testing is complete. This includes any electronic device(s) that can be used for communicating, recording, timing, creating images, or storing images. This also includes smart watches and cell phones.
