Sexual violence violates a person's trust and feeling of safety. It occurs any time a person is forced, coerced, and/or manipulated into unwanted sexual activity. Rape is a crime. It is motivated by a need to control, humiliate, and harm. It is not motivated by sexual desire. Rapists use sex as a weapon to dominate others. Against your will is against the law.

The Sexual Assault Resource and Counseling Center (SARCC) provides counseling, education, advocacy and prevention programs on sexual abuse issues.

Whether you need immediate help or you've been dealing with a sexual assault experience for years...SARCC's trained counselors and staff can help. The healing process begins with the first call.
