

Incoming 6th Grade Students - Preliminary Language Preference

We reviewed our World Language Survey results and noted that there is some interest in offering Mandarin at Scarsdale Middle School. However, more information is needed.

On a **preliminary basis**, if three (3) world languages were offered at Scarsdale Middle School (French, Mandarin, & Spanish), please choose the World Language your child will study in 6th grade.

A student's language choice is a three year commitment. Changes in language choice will not be allowed after formal registration is complete.

Spanish notwithstanding, World Language courses in grade 6 are designed for beginning language learners. Courses are not designed for students who have had prior instruction in these language options.

Please submit a response for each child entering 6th grade next year so we can make an informed decision about which languages to offer.
