

Graduation Pathways

The path to graduation is not one-size fits all.

SCH offers a variety of pathways for
students earning a high school diploma.

Which path will you take?

Indiana CORE 40

Before choosing a graduation pathway, students
must first be on the road to obtaining an Indiana
CORE 40 diploma.

Hammond Central & Morton Pathways

Business Management

On this path, students are introduced
to the world of business, including
the concepts, functions, and skills
required for meeting the challenges
of operating a business in the 21st
Century.

Biomedical Science

Students on this pathway work
alongside researchers, biomedical
engineers, and technicians to
advance the cause of medicine and
develop new cures for disease.

Area Career Center Pathways

Career & Technical Education (CTE)

Students on this career-focused path
prepare for high-demand jobs
through in-depth learning that builds
real-world skills.

Advanced
Manufacturing

Auto Technology

Computer IT
& Networking

Construction
Technology

Computer Science

On this path, students are introduced to the techniques necessary to develop and maintain computer systems, including writing code and web development skills.

Early College

This rigorous path allows students to earn both a high school diploma **and** up to two years of credit toward a bachelor or associate degree.

Education

This active-learning path helps students develop a foundation for employment in the education field. It prepares students for study in higher education through skill development in writing, math and science.

Engineering & Design

Students on this path develop critical thinking skills to solve problems, and engage in interdisciplinary activities like working with a client to design a home and programming electronic devices.

Hammond Arts & Performance Academy

This rewarding pre-professional arts program path provides students with experiences and opportunities to shape their lives and offers the unique opportunity to develop and craft artistic gifts.
