

# **Scheduling Options for College Bound Sophomores at MVHS**

# **Rigor is Key.....**

## **How can we Achieve it**

MVHS offers Advanced Placement and College Credit Plus through Kenyon and COTC in the building.

Pros:

- Easy to schedule
- Access to a HS teacher
- Rigor
- Highly transferable

## Course Offerings in the building that translate to transcribed college credit (College Credit Plus)

KAP US History - 8 Sem. Hrs

KAP Chemistry - 12 Sem. Hrs

KAP Spanish - 4 Sem. Hrs

KAP French - 8 Sem. Hrs

KAP English - 8 Sem. Hrs

**Total: 40 Semester Hours**

COTC Human Physiology - 4 Sem. Hrs

COTC Precalculus - 5 Sem. Hrs

COTC Advanced Composition - 3 Sem. Hrs

COTC Psychology - 3 Sem. Hrs

COTC Speech - 3 Sem. Hrs

COTC Financial Literacy - 3 Sem. Hrs

**Total: 21 Semester Hours**

# Advanced Placement in the Building

## Pros:

- Most colleges accept AP Credit with a score of 4 or 5 on the AP Test and some accept a 3
- Rigor is universal (all AP classes follow a uniform curriculum)
- Majority of Selective Schools Prefer AP Classes to CCP Classes
- All are weighted

AP Biology

AP English Literature and Composition

AP Spanish

AP Statistics

AP French

AP Government

AP Physics

AP 2D Art and Design

AP Calculus

AP Drawing

# CCP outside of the building

We are lucky to have many options close to us

## Places Students have taken CCP recently:

- OSU - Newark or Mansfield
- Mount Vernon Nazarene University
- Ashland University
- Cedarville University
- COTC Knox or Newark Campus
- Kent State

# CCP Out of the building considerations..

## Pros:

- Flexibility of schedule (only have to be at MVHS when you have a class)
- Most are weighted (there has to be an AP class at MVHS in the subject to get the weight)
- Each semester class is worth a whole high school credit (3-5 sem. hours)

## Cons:

- Scheduling logistics
- Private vs. Public institution transferability
- Not all are weighted (there has to be an AP class at MVHS in the subject to get the weight)
- Not all rigor is the same

## What have MVHS Graduates Found Helpful:

- AP and CCP courses have helped shortened their time in college
- Reduced required credits per semester so they could focus on keeping GPA up
- Curriculum in coding or computer science is helping some students by giving them the basic knowledge. (AI is everywhere and coding is a part of many majors)

This student stayed at MVHS and took many of our AP / CCP classes offered in house.

They attended a private university and majored in Engineering and were able to take a year off of their four year degree.

All highlighted classes transferred in some way toward their degree.

# What path is right for you....

Things to consider:

- If you know where you want to end up attending college, call their admissions office and speak to a counselor. They can tell you what will transfer as it pertains to their particular major.
- Make sure equivalencies match up. For example, if a school requires a 4 semester hour composition class make sure that you are taking a four semester hour course to fulfill that requirement.
- Prepare for your ACT / SAT. If you took the PSAT, you have access to Bluebook with practice tests. Khan Academy also has practice for ACT and SAT tests. We usually recommend taking these at the end of your Junior year. Even though many schools are test optional, we are seeing many schools requiring testing again.
