VISION

The Vision of Union County Early College (UCEC) incorporates three core values, Rigor, Relevance, and Relationship, to provide an environment conducive to positive student-teacher relationships and increasing academic performance for admission to college courses during the first two years.

SCHOOL AND COMMUNITY

The Union County Early College High School program began in August 2006. We are one of the eleven district high schools for Union County Public Schools. Union County Public Schools is the sixth largest school district in North Carolina.

Union County is situated in the south piedmont area of North Carolina with an estimated population of over 200,000 residents. The county provides a unique blend of rural and metropolitan lifestyles. Students from all over Union County attend our Early College program.

Union County Early College High School is located on South Piedmont Community College campus. We are an accelerated program combining four years of high school and two years of college transfer courses. Students can graduate in five years with a high school diploma and an associate's degree.

RECRUITMENT

Union County Early College accepts approximately 100 ninth grade students each school year. Rising ninth grade students from throughout the Union County Public School Systems apply for acceptance into the Early College program. Recruitment takes place at nine different middle schools in the district. This program is searching for students who have the potential for success in college courses and who are first generation college students.

ACADEMIC PROGRAM

Union County Early College High School is on a 4x4 block schedule. Students attend four high school classes for ninety minutes each during the eighteen week semester. Students may earn a minimum of eight high school credits in a school year. All high school courses are taught at an honors level, as long as it is available in the district. Students are required to complete a minimum of 28 credits to receive a college/university preparatory high school diploma and 61 community college credits to receive an associate's degree. Students have the opportunity to earn an Associate's of Art or Associate's of Science through South Piedmont Community College.

Students take community college classes during the regular school day, which counts as dual high school and college credit. Dual credit college courses generally count for one high school honors

level elective credit. Students must pass the college entrance exam before beginning college courses. Typically, students take 1-2 college courses in ninth and tenth grade, 2-3 college courses in eleventh grade and 4 or more college courses in twelfth through thirteenth grade. Upperclassman may have only 1 or 2 high school classes.

GRADUATION REQUIREMENTS

English – 4 credits
 Mathematics – 4 credits
 Science – 3 credits
 Social Studies – 4 credits
 World Language – 2 credits
 Health/Physical Education – 1 credit
 Electives – 10 credits

2018-2019 ENROLLMENT
