

## iScience Online Resources

Name \_\_\_\_\_

The Peters Township Middle School science program uses three McGraw Hill textbooks: *Physical iScience*, *Earth and iSpace Science*, and *Life iScience*. These books offer many online resources, including an ebook (online text with audio), virtual labs, self-check quizzes, animations, videos, 3D simulations, vocabulary flashcards, and games. To access the online science book resources, follow these instructions:

1. Log into Clever. It already has your user name and password for Connect Ed. You need to copy and paste them into Connect Ed. OR Go to [connected.mcgraw-hill.com](http://connected.mcgraw-hill.com)
2. Click on the Join Class button to add the codes for each of the three books: O is the letter O

**JZDS - 6NXB – F7WQ**– Earth & Space science

**GVOS – 86KW – D6RO**– Life Science

**3JPR – DQPM – 7ODO**– Physical Science

3. Once the books are added, click on the *Physical iScience* book. Open your actual book to to pages x-xi. These pages give you an overview of each online resource and how to access them. You can always check back here to remind yourself how to find the online features.

4. Now that you have received an overview of the online resources, let's practice finding them. Answer the following questions:

A. In the Physical iScience book, select chapter 10 and write the names of the three lessons that show up under coursewide resources:

---

---

---

B. Select Lesson 1 under Chapter 10. Click on the ebook. At the bottom, click on the Watch icon and list one of the videos that is available: \_\_\_\_\_

Click on the Check icon and list one of the resources available: \_\_\_\_\_

Click on the Resource icon, then click on Chapter Resources. What page is the content vocabulary found? \_\_\_\_\_

C. Under the menu, which link takes you to all of the materials for a chapter?

---
