Smithtown Sensational Science Club 2024-2025

Before School 8:20 AM – 9:20 AM

For students in Grades 2nd through 5th

Welcome back science lovers! Sensational Science is back with 4 ALL NEW fun and educational science clubs. During each club our young scientists will explore the world of science. They will perform hands-on experiments on the topics of chemistry, physics, life science, earth science, and problem solving. Best of all, not only will they leave with the knowledge of science; they will be able to bring home most of their creations. On top of that, they will not repeat a single experiment for the whole year!

SENSATIONAL SCIENCE 1

School is back in session. The fall season is here. Join us for Sensational Science 1, as we perform some fascinating science experiments. During this club, our “scientists” will discover the world of life science, chemistry and physics. Students will explore “creepy” chemical reactions, travel back in time and discover fossils, and bend or even break the laws of physics.

Where?	When?
<u>Accompsett Elementary</u> - Tuesdays <u>Dogwood Elementary</u> - Wed or Thurs <u>Mills Pond Elementary</u> -Wednesdays <u>Mount Pleasant Elementary</u> -Wed or Thurs <u>Smithtown Elementary</u> - Wednesdays <u>St. James Elementary</u> - Wed or Thurs <u>Tackan Elementary</u> - Thursdays	Tuesday -10/22, 10/29, 11/12, 11/19 Wednesday -10/23, 10/30, 11/6, 11/13 Thursday -10/24, 10/31, 11/7, 11/14

****All students leave with the experiments they created!****

Registration online only at: www.scopeonline.ce.eleyo.com Click Enrichment

Space is limited to 20 students per session.

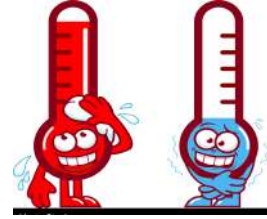

COST: \$125.00 PER SESSION

SENSATIONAL SCIENCE 2

Winter is here and it's cold outside, but the science club is heating up. During Sensational Science 2, students will continue to explore the world of science. Students will experiment with the power of static electricity. They will discover how different materials react to heat and cold. Additionally, they will use science to investigate the world of codes and ciphers.

Tuesday-1/14, 1/21, 1/28, 2/4
Wednesday-1/15, 1/22, 2/5, 2/12
Thursday-1/16, 1/23, 1/30, 2/6

SENSATIONAL SCIENCE 3

Springtime is here, so let's spring into a new set of science experiments with Sensational Science 3. During this club, students will explore biology by analyzing tree cookies. Next, students will use their engineering skills to make moving insects. Last, students will explore density and buoyancy to make things sink and float.

Tuesday- 3/11, 3/18, 3/25, 4/1
Wednesday-3/12, 3/19, 3/26, 4/2
Thursday-3/13, 3/20, 3/27, 4/3

SENSATIONAL SCIENCE 4

CSI- Crime Scene Investigations- Case of the Missing Skull

The school year is coming to an end, but not until our crime is solved: CSI-The Case of the Missing Skull. During this 4 week club, students will work together to solve a crime. They will learn and use forensic techniques to analyze evidence found at the scene. Good luck detectives!

Tuesday-5/6, 5/13, 5/20, 5/27
Wednesday- 5/7, 5/14, 5/21, 5/28
Thursday- 5/8, 5/15, 5/22, 5/29

****All students leave with the experiments they created!****
