SEATING CHALLENGES

•Sit in birthday order so that the person with the birthday closest to January 1 sits in **Seat 1**.

- The year you were born doesn't matter.
- Don't skip seats.

•When everyone is seated, the student in **Seat 5** will raise his or her hand and report that the class is ready to begin.

- •Line up in alphabetical order by the first name you like to be called.
- •Use last names and then middle names as tie-breakers.
- •Sit in alphabetical order starting with **Seat 1**
- •When all are seated correctly, the **last** student raises his or her hand and reports that the class is ready to begin

- •Seat yourselves by the number of siblings you have. Students with 0 siblings start at **Seat 1**
- •When all students with 0 siblings are sitting, students with 1 sibling sit next and so on
- •Do not leave any seats open in between you
- •The person in **Seat 8** raise your hand and tell the teacher you are ready

•Separate yourselves by the school you attend:

- Berea
- Brooklyn
- Fairview
- North Olmsted
- Olmsted Falls
- Strongsville
- •Devise a unique way to organize yourself within your school group and seat yourselves starting with a Berea student in **Seat 1**
- •When everyone is seated properly, the student in **Seat 18** will raise their hand and report that class is ready to begin
- •One student from each group will explain their unique means of arranging their seating

Complete this challenge in complete silence. Remain silent for the entire activity. Do not talk or whisper after you enter the room.

- •In the room, line up in order by height.
- •Then take your seats with the shortest person in **Seat 1**.
- •Do not skip seats.
- •When the class is seated, the student in **Seat 12** raises their hand, and when called on reports that the class is ready.
