

Lesson 6 Homework Practice

Select an Appropriate Display

1. **FOOD** Which display makes it easier to see the median spent on food in a state from 2007 to 2012?

Select an appropriate type of display for data gathered about each situation.

- heights of buildings in town
- number of cars a dealer sold each month over the past year
- number of scores made by each team member in a basketball season
- OLYMPICS** Select an appropriate type of display for the data. Then make a display.

Olympic Hammer Throw Winners			
Year	Distance (m)	Year	Distance (m)
1968	73	1988	85
1972	76	1992	83
1976	78	1996	81
1980	82	2000	80
1984	78	2004	83

6. **GEOGRAPHY** Display the data in the bar graph using another type of display. Compare the displays.
