Thank You!!

Thank you for your purchase! This document contains 18 pages of self assessment for students. After printing the pages, cut them into circles (I used the Ek circle cutter). I highly recommend that you laminate the pages so the students don't bend or break the pages. The students can use these circles as a way to assess themselves. The students can use this as a way to signal you that they need help or their evaluation of themselves. This document is for single classroom use only. You may not make multiple copies, share this document (unless it is the link), or post it on your blog, website, or store. Thank you!
