Physics Semester 1 Test Review

Review Schedule:

- Monday, January 7 and Tuesday, January 8: Work on Semester Review Practices
- Wednesday, January 9: Work on Practices & Complete Crib Sheet in the Classroom ONLY
- Thursday, January 11 or Friday, January 12: Semester Test

The Test:

- The test is worth 14% of your semester grade.
- Test will be taken through BlackBoard Learn. Know your user name and password.
- 72 questions: 13 true/false, 31 multiple choice and 28* fill-in-the-blank (*calculation required)
- A scientific calculator is recommended.
- I will provide NO equations. You may write all equations on your Crib Sheet.
- Bring a book to read or something to keep yourself occupied (just in case you complete the test early).
- You will not be allowed to leave the classroom during the testing period.

General Overview:

In order for the review to be most helpful, it is necessary for you to work through the practices and come to class prepared to ask questions for clarification and review. In addition, you should look over notes to help study!

The Review:

The Test is divided by topics (or units). Practice questions can be found on BlackBoard Learn.

Use the practices in the Semester Review Folder. Each set of questions consists of 6-10 multiple choice, true/false and fill-in-the-blank questions. Use these questions to prepare for the test. Test questions will be randomly generated from these reviews. Review practices can be completed multiple times to prepare for the test.

Notice the number in the box...that is the number of test questions from the section.

	8			
Unit 1-Introduction to Physics Standards of measurement		netric conversion	doncity	aranhina
	I		density	graphing
Unit 2- Motion				
distance/displacement	speed/velocity		acceleration	motion graphs
Unit 3 & 3.5 – Forces & Momer	ntum	15		
unbalanced forces	friction		weight	momentum
inertia	gravity	11	Newton's law	
Unit 4- Circular and Rotationa	l Motion			
Circular Motion		Rotational Motio	on	Universal Gravitation
Centripetal Force	9	Center of Gravity	ý	
<u>Unit 5 – Mechanical Energy</u>				
potential energy	kinetic	energy	mechanical energy	conservation of energy
Unit 6 – Work and Power	8			
Work			Power	
Unit 7 – Machines, Efficiency a	nd Mecha	anical Advantage	10	
simple machines	compou	und machines	efficiency	mechanical advantage
