

Seniors

Please note: If you are asking a teacher to write you a letter of recommendation, you must have a conversation with them. Some teachers require you supply them with a resume or fill out some information before they will write a letter on your behalf.

The guidance office should also have a copy of your resume listing your activities and awards.

Transcripts

Students or their parents will not be given transcripts to be sent on their own. An official transcript is one that is signed by the principal, sealed with the school stamp and sent directly from G.A.R. High School to the College or University. You must come to the guidance office and put your name in the request transcript book along with where you need the transcript sent. We keep a log of every transcript we send out.
