

# POWERFUL PARTNERS

Preparing for the future starts now, but how do students apply what they have learned in school to the real world? Sharing college prep or vocational options and real world scenarios, will help our scholars thrive after high school. Here are some tips and websites to help students navigate the next step in their life.

## Let's Talk Math!

Tell your child that you have an “imaginary” \$50 to spend on school supplies this year. Find a weekly sales flyer from a local store, or use the pictures from this document instead. Tell your child they can get whatever combination of supplies they want, but they cannot exceed \$50 INCLUDING sales tax.

**SAVINGS, LET'S GO**
