

MRS. BRITSCH'S AND MS. VOKE'S 4TH GRADE CLASS

September

Math Facts

Math fact practice will greatly strengthen your child's readiness for subsequent grade levels.

Students can practice any length of time from home. All practice will help your child increase proficiency with math.

Your child can practice using regular flash cards purchased at many stores, flash cards from school, or other online practice and games.

Please call if you have any questions about math fact practice.

Contact Me!

Remember, you can feel free to contact me at home or school about anything that concerns my class. I encourage the parents of my students to call about anything at all that concerns them about school. If I don't know the answer to your question, I'll do my best to find out for you!

If you call after school, please call before 8:30 pm.

My cell phone number is 1-937-470-5426.
You can also contact me through email at lbritsch@gcswave.com.

Math

In math this month we are going to review some key concepts from 3rd grade and then move right into 4th-grade material with place value, adding, subtracting, and multiplying. The following learning targets are the concepts students will be able to demonstrate by the end of the month:

I can use the addition algorithm to add.

I can use the subtraction algorithm to subtract.

I can explain why multiplication strategies work.

I can use strategies to solve word problems.

I can multiply using 'times as many.'

Social Studies

I can explain the importance of Patriot's Day.

I can explain the importance of the Constitution.
