

### **Service Form for the Junior Beta Club**

(Parents, please note: *Individual community service hours are services that are provided by the students to the community that are in addition to the service projects that are fulfilled by our club as a whole. Service projects should include any service for which a student does not get paid and is not directly related to functions of the immediate family (i.e., chores at home or any act of service that would otherwise be fulfilled in everyday family situations). Our goal is to help students understand the responsibility of citizenship and belonging to a community and how they can help support that community in a positive way.*)
