

Student Growth Goals: Promoting Reflective Conversations

Effective conversations are a highly efficient way to draw out evidence of a teacher's student growth goal process. While some "naturally occurring" artifacts might support the process, nothing compares with effective conversation. The following example prompts might be useful for propelling conversation around a teacher's student growth goals.

General Purpose Invitational Question Stems:

What are some ways you might ...?
What might be a strategy you'd use to ...?
What sorts of things did you notice when ...?
Tell me more about ...

NOTE: The purpose of these prompts is to promote and support *interactive, two-way conversations to probe practice and prompt reflection*. (Please don't turn them into a form!)
