

Make a drawing using a whole sheet of paper with shoes in it.

1. ***Must include side view, top view, and sole of shoe.*** Can be realistic or fantasy. A good drawing should take you about 2 hours.
2. You may add anything else you want and arrange them in a fun way. You can keep them line drawings or use shading if you are comfortable with that.
3. Keep them neat!
4. You may use any materials you have at home: pencil, colored pencil, cut paper, markers, watercolors, pastels, Sharpies.
5. When you are finished. Take a photo of it and save the photo to your school Google Drive. Insert it into the Google Doc provided in the assignment and hit the turn in button.

These are due by Friday, March 20.

Here are some examples that do not have all of the requirements but are here for inspiration:
