

Name: _____

Period: _____

Date: _____

Sigfig Sugar Skull

- For each section that has a number, color it based on the number of significant figures present in the number.
- For each section that has addition, subtraction, multiplication, or division, use the rules that apply to each function to determine how many significant figures the answer would have. Then, color the section based on the number of significant figures the answer should have.
- Any sections without numbers should be colored as you like.

1 sigfig – red
2 sigfig – blue
3 sigfig – yellow
4 sigfig – orange
