

Silly Monsters, K lesson

Read: Hungry Monsters ABC

Create: Silly monsters drawing

Read: Wild Things (if time)

Lesson objectives:

Literature- Reading and alphabet review

Drawing- utilizing shapes + lines to create monsters

Creativity- Using imagination and freedom of expression

1. Read Hungry Monsters ABC to the class.
2. Ask students to imagine a few monsters they might like to create- suggest a few idea or take ideas for monster features and characteristics- horns, hair, spikes...
3. Tell students they can use their imaginations to create their ideas on paper- using shapes and lines they already know (may want to review shapes and lines). I will leave you black pens or markers for them to use. (If I leave Sharpies, remind students that Sharpies are permanent and not a toy.) I'll leave you a step by step demo on how to make some monsters and animals that you can turn into monsters
4. After students draw at least 5 (or more- you make up the number depending on the timing) monsters, they may color monsters with crayons.
5. If you have time, you can read Wild Things, have students share monsters with class, or re-read Hungry Monsters.
6. Students may take monsters home with them.

DRAWING SASQUATCH THE ED EMBERLEY WAY!
