

Serial Killer Coloring Pages

For this project, you may choose any THREE serial killers and create your own style of coloring page based on their life and crimes. Include some relevant dates, words, phrases, or objects to help fill space and create an overall summary of your individuals. All pages must include their name, and "a.k.a." if they have one.

Please review the project requirements and rubric below to ensure you get the best grade you can!

1. Choose three different serial killers. Research to observe their physical appearance and summary of the crimes they committed during their lives (see component 4). This will be scored alongside #3 - your final design.
2. Rough Draft – Before you may transfer your design to your final coloring page, your teacher must approve any images and text you'd like to include. No profanity, nudity, or sex-related images will be allowed for this project.
3. Final Design – Transfer your rough draft into your final draft. It should be all black and white and include your name or initials in the bottom right corner to give credit to the original creator.
4. Explanation – On a Google Doc (provided for you):
 - List the name of each individual.
 - Give the number of victims and location of the crimes
 - Describe the MO of your individual
 - Discuss the victimology
 - List any relevant weapons
 - Discuss any significant events in the life of your individual
 - Describe the arrest, trial, and sentencing of your killer
 - List any characteristics of a psychopath you observed in your research
