

SLO Questions and Answers

Q – Can we see samples of SLO's?

A – Yes, there are links on the HR website to other Districts/States that have many samples on there.

Q – If someone has 3 Algebra I classes are they to do an SLO on all 3, just 1 of the classes, or do they have an option?

A – Each teacher needs to have 2 different SLO's. If this teacher is teaching something else besides Algebra I, they will need to do 1 SLO on a combination of all 3 Algebra I classes and the other SLO on their other class.

Q – Teachers not doing an SLO would like to know how value added will be calculated for them.

A – We will hold training on calculating this during the November 5th in-service.

Q – When new students are enrolled, do we need to administer the pretest and add them to our SLO?

A – Yes, every time you receive a new student, you must administer the pretest and add to your SLO. You will NOT turn in your SLO once it has been approved even if you receive new students.
