PA Common Core Standards for Reading and Writing in Social Studies:

Pennsylvania Department of Education has released standards that describe what students in the social studies classroom should know and be able to do with the English language in reading and writing, grade 6 through 12. The standards provide the targets for instruction and student learning essential for success in all academic areas, not just language arts classrooms. Although the standards are not a curriculum or a prescribed series of activities, Blackhawk School District has used them to develop this social studies curriculum.

The standards for Reading are available at:

The standards for Writing are available at:

ESSENTIAL QUESTIONS:

Essential questions are the heart of the curriculum. Essential questions are conceptual commitments that teachers will use to guide instructional decision-making. In addition, they are kid friendly so that students can easily understand them. Essential questions are meant to be shared with students in either discussion or posting in the classroom.

Essential questions provide the focus for teaching and learning. The following are the Essential Questions for this class:

1. **How did European exploration of the Americas change the world?**
2. **Why were European explorers able to contact and conquer Native Americans and MesoAmericans, instead of the other way around?**
3. **How old geography, culture, and natural resources shape the different colonial regions?**
4. **Why did the U.S. declare its independence from Great Britain?**
5. **What changes did the young nation face, and how did we meet those challenges?**
6. **What was manifest destiny and how did it guide the 19th century thinking?**
7. **What is the legacy of slavery in America?**
8. **What cause the Civil War? What is its legacy today?**

ASSESSING ESSENTIAL QUESTIONS:

Assessing Essential questions is key to a robust curriculum. If Essential Questions are the focal point of learning, how then do we assess students? The following is an overview of recommended assessments to the Essential Questions. In addition, Differentiated learning opportunities are embedded as well (noted by DI).

ROBUST VOCABULARY:

Robust vocabulary words are Tier 2 words, meaning that they are complex, powerful, and generalizable. Robust vocabulary words support language development of both lower and high level learners. In addition, robust vocabulary instruction helps prepare students for SATs, upper level high school classes, and college. “Studies showed that robust instruction was quite effective not only for learning the meanings of words but also for affecting reading comprehension.” (p. 2 Bringing Words to Life).

Teachers are asked to commit to teaching and students USING these words throughout the entire year. Using a variety of instructional strategies, students will learn the meaning of these words in a deep and meaningful way in this content and across other content areas.

The Robust Vocabulary terms for this class are: **Analogous, Hierarchy, Culture, Hypocrisy, Dissent, Inherent, Revolution, Perspective, Via, Advocate**
