

## Spanish 2 → Spanish 3 Summer Review

1. Go to [www.duolingo.com](http://www.duolingo.com) or get the duolingo app for your phone/tablet/computer.
2. From here you have two options-
  - a. if you remember your login from last year use that and pick up where you left off.
  - b. For students new to Riverside or if you can't figure out your login: Create a new account. New account user name must be: First name, last initial format  
Example : if your name is **Dave Smith** your user name would be **DaveS**. If that name is taken, fill in some numbers after it to make it unique. Example:  
**DaveS.123**  
Failure to create a proper username may result in no credit status. You must be able to show it is your account and not someone else's to receive credit.

5. Print out a copy of the page showing you have reached this check point (**make sure your user name is on the page if you print**) or be prepared to show your progress on your device sometime during the first week of school.

I will not be accepting work from students if it is not clear it is from their account and not a friend's.
