

DIGITAL STORYTELLING

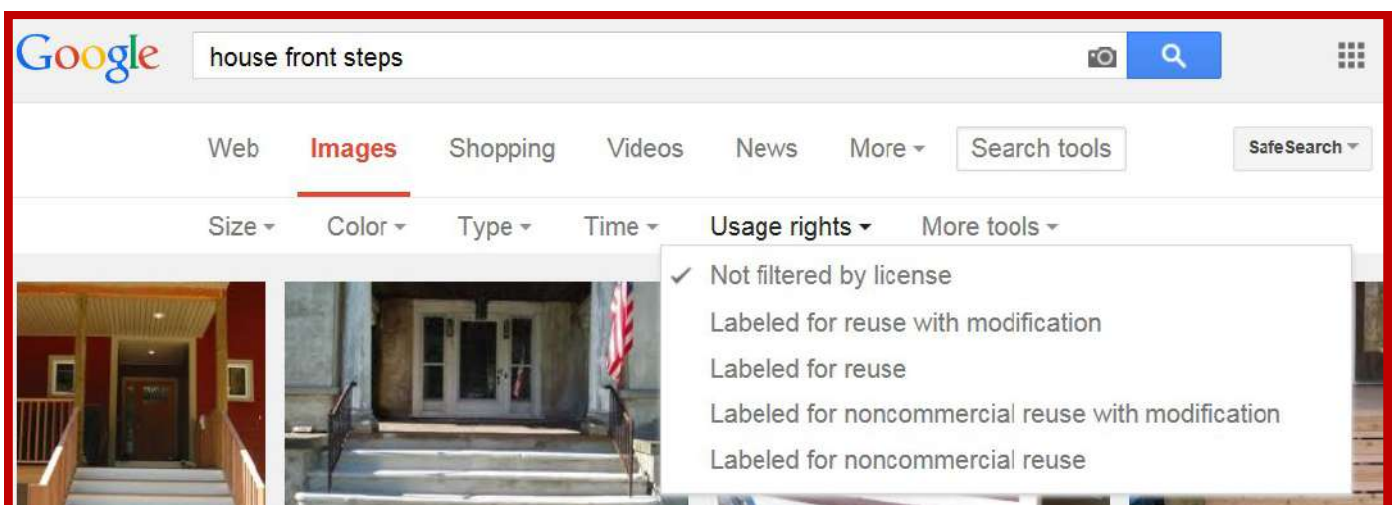

Sources for Creating a Spanish Digital Story Using iMovie

- The use of computer-based tools to tell a story, incorporating
 - Narrative
 - Images
 - Sound
 - Video
- Typically has a strong emotional component.
- Can be instructional, persuasive, historical, or reflective and can be effectively applied to nearly any subject.
- Gives the storyteller enormous creative latitude.
- Although groups of students can collaborate on digital stories, it is best suited to projects by individual users.

Tip: Create a Folder on the Desktop to store your photos and music files

<http://www.google.com>

When searching for google images, Go to Search Tools and Usage Rights to find images that are labeled for reuse.
