

Station Title: \_\_\_\_\_

Station Volunteer Name: \_\_\_\_\_

### Station Rating—Feedback

As in previous years, I would like to find out how each station went. How popular it was or could be, and what changes to the station would allow it to run more smoothly (harder/easier challenge levels, bigger area/ different location, needs more/different equipment, etc.)

Your feedback is important for improving stations from year to year. Without that feedback we would have a mediocre Falcon Field Day and we never want to settle for "mediocre".

Please leave me a rating on a scale from 1-10 of how popular/fun your station was with primary students (K-2) and for intermediate students (3-5):

- 10 being one of the most popular/fun stations
- 8-9 being very popular and definitely worth keeping
- 7 as having potential to be a favorite with some modifications
- 6 or lower—needs serious overhaul or needs to be thrown out all together

PRIMARY (grades K-2) \_\_\_\_\_

INTERMEDIATE (grades 3-5) \_\_\_\_\_

What things did you/students like best about the stations and what went well?
