

STEMscopes - Frequently Asked Questions

Q: What is STEMscopes?

A: STEMscopes is the online science curriculum used for teaching science in grades K-6.

Q: Why STEMscopes?

A: STEMscopes is aligned to the state standards and focuses on student learning through hands-on exploration and inquiry. Each lesson includes a series of investigations and activities to bring science to life allowing students to “learn by doing” and fully engage in the scientific process.

Q: How does STEMscopes support my child’s learning?

A: STEMscopes provides *always-available resources* that can be accessed at home, including:

- A video glossary
- “Games”
- STEMscopedia
- Intervention activities
- Acceleration activities

Q: How does my child access STEMscopes at home?

A:

1. Have your student log in to their Clever account.

2. Click on the gray STEMscopes icon.
3. Your child should see their assignments that should be completed and submitted.

Q: Who do I contact if my child has issues accessing STEMscopes?

A: If your child has difficulty accessing STEMscopes, please contact his/her teacher. For additional assistance, email support@cleveland.k12.ms.us

Thank you for your continued support in making science count every day!
