SCHOOL RENEWAL PLAN COVER PAGE

SCHOOL NAME: Sterling School

SCHOOL RENEWAL PLAN FOR YEARS 2018-19 through 2022-2023 (*five years*)

SCHOOL RENEWAL ANNUAL UPDATE FOR 2019-2020 (*one year*)

Required Signature Page

The school renewal plan, or annual update, includes elements required by the Early Childhood Development and Academic Assistance Act of 1993 (Act 135) (S.C. Code Ann. §59-139-10 *et seq.* (Supp. 2004)), the Education Accountability Act of 1998 (EAA) (S.C. Code Ann. §59-18-1300 *et seq.* (Supp. 2004)), and SBE Regulation 43-261. The signatures of the chairperson of the board of trustees, the superintendent, the principal, and the chairperson of the School Improvement Council, and the School Read to Succeed Literacy Leadership team lead are affirmation of active participation of key stakeholders and alignment with Act 135 and EAA requirements.

Assurances for the School Renewal Plans

The assurance pages following this page have been completed and the district superintendent's and school principal's signature below attests that the school/district complies with all applicable assurances requirements including ACT 135 assurance pages.

***REMINDER:** If state or federal grant applications require representation by other stakeholder groups, it is appropriate to include additional stakeholders to meet those requirements and to ensure that the plans are aligned.

ASSURANCES FOR SCHOOL PLAN

(Mandated Component)

Act 135 Assurances

Assurances, checked by the principal, attest that the school complies with all applicable Act 135 requirements.

X Academic Assistance, PreK–3

The school makes special efforts to assist children in PreK–3 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation).

X Academic Assistance, Grades 4–12

The school makes special efforts to assist children in grades 4–12 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation).

X Parent Involvement

The school encourages and assists parents in becoming more involved in their children's education. Some examples of parent involvement initiatives include making special efforts to meet with parents at times more convenient for them, providing parents with their child's individual test results and an interpretation of the results, providing parents with information on the district's curriculum and assessment program, providing frequent, two way communication between home and school, providing parents an opportunity to participate on decision making groups, designating space in schools for parents to access educational resource materials, including parent involvement expectations as part of the principal's and superintendent's evaluations, and providing parents with information pertaining to expectations held for them by the school system, such as ensuring attendance and punctuality of their children.

X Staff Development

The school provides staff development training for teachers and administrators in the teaching techniques and strategies needed to implement the school/district plan for the improvement of student academic performance. The staff development program reflects requirements of Act 135, the EAA, and the National Staff Development Council's revised *Standards for Staff Development*.

X Technology

The school integrates technology into professional development, curriculum development, and classroom instruction to improve teaching and learning.

X Innovation

The school uses innovation funds for innovative activities to improve student learning and accelerate the performance of all students. Provide a good example of the use of innovation funds.

X Collaboration

The school (regardless of the grades served) collaborates with health and human services agencies (e.g., county health departments, social services departments, mental health departments, First Steps, and the family court system).

X Developmental Screening

The school ensures that the young child receives all services necessary for growth and development. Instruments are used to assess physical, social, emotional, linguistic, and cognitive developmental levels. This program normally is appropriate at primary and elementary schools, although screening efforts could take place at any location.

X Full-Day Child Development

The school provides full-day child development programs for **four-year-olds**. The programs usually function at primary and elementary schools, although they may be housed at locations with other grade levels or completely separate from schools.

X Developmentally Appropriate Curriculum for PreK–3

The school ensures that the scope and sequence of the curriculum for PreK–3 are appropriate for the maturation levels of students. Instructional practices accommodate individual differences in maturation level and take into account the student's social and cultural context.

X Parenting and Family Literacy

The school provides a four component program that integrates all of the following activities: interactive literacy activities between parents and their children (Interactive Literacy Activities); training for parents regarding how to be the primary teachers for their children and full partners in the education of their children (parenting skills for adults, parent education); parent literacy training that leads to economic self-sufficiency (adult education); and an age-appropriated education to prepare children for success in school and life experiences (early childhood education). Family Literacy is not grade specific, but generally is most appropriate for parents of children at the primary and elementary school levels and below, and for secondary school students who are parents. Family Literacy program goals are to strengthen parent involvement in the learning process of preschool children ages birth through five years; promote school readiness of preschool children; offer parents special opportunities to improve their literacy skills and education, a chance to recover from dropping out of school; and identify potential developmental delays in preschool children by offering developmental screening.

X Recruitment

The school makes special and intensive efforts to **recruit** and give **priority** to serving those parents or guardians of children, ages birth through five years, who are considered at-risk of school failure. “At-risk children are defined as those whose school readiness is jeopardized by any of, but not limited to, the following personal or family situation(s): Educational level of parent below high school graduation, poverty, limited English proficiency, significant developmental delays, instability or inadequate basic capacity within the home and/or family, poor health (physical, mental, emotional) and/or child abuse and neglect.

X Coordination of Act 135 Initiatives with Other Federal, State, and District Programs

The school ensures as much program effectiveness as possible by developing a district-wide/school-wide coordinated effort among all programs and funding. Act 135 initiatives are coordinated with programs such as Head Start, First Steps, Title I, and programs for students with disabilities.

Action Plan 24

Introduction

Sterling School is home to two programs: Sterling elementary, serving 381 students 4K-5th grades, and the Charles Townes Center, a select program for 444 highly gifted students (grades 3-8). The programs operate within a single school and will be guided by unified beliefs, vision, and mission.

The School Improvement Council (SIC) and teaching staff have worked this year to identify key areas in which Sterling School should spend time and energy advancing itself over the next five years. Teachers worked in grade level teams based on the following grade levels: early childhood, elementary and middle school. The teachers and School Improvement Council reviewed test scores data, ADVANCED Ed survey data and completed the Advanced Ed self-assessment. The data and charts were reviewed and compiled in the current Strategic Plan.

Over several sessions the SIC developed a list of items indicative of the current culture, as well as the culture that we want to see develop and flourish at Sterling School. This list of items fit into two key focuses: experiential learning and inclusivity.

Executive Summary

Student Achievement

Needs Assessment:

Students in the Sterling Program come to us from diverse backgrounds, cultures, and situations. Challenges we face include building the foundational skills and fundamental knowledge required to close the achievement gap between our students from poverty and our students from higher socioeconomic backgrounds. Specifically, Sterling School needs to:

- Improve student achievement across minority subgroups
- Target instruction at foundational literacy and math skills
- Increase performance in all core content areas as determined by school goals

Teacher and Administrator Quality

Needs Assessment:

Both the Sterling and Charles Townes Center Programs require highly trained faculty and support staff to meet the needs of our students. Highly gifted students require high levels of social and emotional support as well as a very rigorous, challenging, and personalized academic environment. Students from poverty require high levels of social and emotional support, intensive academic support, and a personalized academic environment. To meet these diverse needs, Sterling School must:

- Provide differentiated professional development to faculty and staff
- Use innovative practices to identify and meet the social-emotional and academic needs of all students
- Collaborate across grade levels and programs to best serve each child and family
- Continuously use benchmarks and other formative assessment data to inform instruction and tailor PD to meet the instructional needs of our faculty

Climate

Needs Assessment:

Surveys of students, parents, and staff indicate general approval of the education that students at Sterling School receive. However, data relating to student discipline indicates that more work needs to be done to help our students learn how to navigate peer relationships and we need to improve communication and collaboration between school and home. Specifically, Sterling School will:

- Utilize trauma-informed practices
- Continue training faculty and staff on responsive classrooms
- Integrate soft-skills and character education into content areas when appropriate
- Build upon the advisory curriculum for middle school students

- Streamline communication between school, PTA, and home
- Increase opportunities to partner with families and community organizations
- Continuously assess and address potential safety concerns

Challenges:

- Maintaining a unified school across both programs with such diverse populations and needs.
- Providing the instructional support required to promote success for all students, especially our struggling learners.
- Continuously improving instructional practices and remaining innovative in meeting the academic needs for all of our students, especially our highly gifted learners.

Accomplishments:

During the past three years, Sterling School has made significant progress. Professional development funds and school resources have been spent with school goals and objectives as key criteria. The school staff, PTA and School Improvement Council has been involved in the review and assessment of the Strategic Plan. We continue to make progress in addressing deficiencies and needs by implementing the Gifted Program and successfully developing the Sterling Elementary Program in grades 4K- 5.

School Profile

Sterling School is home to two programs: Sterling Elementary, serving 381 students 4K-5th grades, and the Charles Townes Center, a select program for 444 highly gifted students (grades 3-8). The programs operate within a single school and will be guided by unified beliefs, vision, and mission, but with differentiated methods for meeting that vision and accomplishing the mission.

The uniqueness of each program is based in large part on the manner in which we modify the content, process, product, and learning environment in order to meet the specific needs of each child. Skills related to student collaboration and teamwork are delivered by means of “hands-on, inquiry-based instruction, integration of the arts, and intense focus on research and utilization of technology. Resources are shared between programs and all students are offered opportunities to engage, challenge, and learn from each other in a manner that will be culturally/personally affirming and academically rich. We create a sense of community where each individual knows that he or she is respected and valued.

The programs take advantage of the opportunity to experience education at its highest level. By participating in a joint endeavor, all members of Sterling School will deepen their understanding of issues, which influence our community and country and will gain perspective regarding the diversity that characterizes our world. Additionally, there are frequent opportunities for students to contribute to the exchange of ideas and knowledge within and beyond their learning community. Beyond the academic statistics, it is the hope of the parents and community that all students will learn how to be leaders of their own lives and will reach their true potential.

Sterling School is helping all students develop the world-class skills and life and career characteristics of the Profile of the South Carolina Graduate by providing a safe, caring, and academically challenging learning environment. Our school’s collective success is the result of a dedicated staff partnered with supportive families and community members, working diligently to provide opportunities that enable our students to achieve their fullest potential and prepare them for tomorrow’s world.

Sterling School seeks to provide a robust academic experience through differentiated, student-centered instruction. We encourage an emphasis of the 4 C’s (critical thinking, creativity, collaboration, and communication) that includes a personalized approach to teaching and learning. Sterling provides a unique, innovative instructional program that includes guided practice, project based learning, STEM, 1:1 laptop initiative, and the integration of the arts.

In our ongoing efforts to develop the “Whole Child,” we are working to strengthen our school’s Social Emotional Learning (SEL) framework. We partner with Mentor Upstate to provide identified students with meaningful, positive one-on-one relationships. In supporting students who may be exposed to chronic stress and trauma, our faculty receives training provided by the Compassionate Schools network. Several local community partners also support our ongoing training, including the Julie Valentine Center, Mental Fitness, and the Greenville County Police Department. An advisory program was implemented in our middle school, providing opportunities for students to interact with each other, discuss relevant topics, set goals, and support each other through the challenges of middle school life.

At Sterling, we are living out our mission by preparing students for “tomorrow’s world.” We believe everyone must share the educational responsibility of preparing our students.

Faculty & Staff:

Dr. Josh Patterson brings 16 years of experience in public education and has just completed his first year as principal of Sterling School. The leadership team also consists of Jeremy Murphy, assistant principal, with 12 years of experience including 2 years at Sterling School, and Antrina Miller, administrative assistant, with 17 years of experience is entering her first year at Sterling.

Sterling School is home to 56 highly qualified teachers as determined by the South Carolina State Board of Education. Of those, 25% have obtained national board certification in their respective areas, 40% have earned their gifted and talented endorsement, and 52.1% have earned advanced degrees.

Sterling School also has 3 guidance counselors, one guidance clerk, one data clerk, and one receptionist, as well as 1 bookkeeper, 1 instructional coach, 1 literacy specialist, and 1 program director.

Sterling School serves two main populations, one is an urban population consisting primarily of families from the Nicholtown Community of Greenville. The second population consists of highly gifted students from urban, suburban, and rural areas of the county. As a result, our demographics are complex, but the aggregate consists of 825 students, 32% of whom qualify for free or reduced lunch, 8% are served under IDEA as students with special needs, and 53% are identified as being gifted and talented. Our average daily attendance last year was 96.29%.

Sterling's primary academic focus is on personalized learning that challenges and meets the needs of all students. The faculty and staff accomplish this by providing instruction through balanced literacy, guided math, technology integration, and differentiated instruction based on the individual needs of each student. Additionally, Sterling is a member of OnTrack Greenville and is working to meet both the social-emotional and academic needs of its students through initiatives such as PBIS, MTSS, Compassionate Schools, and Trauma-Informed Classrooms. These initiatives are spearheaded by members of the school leadership team, instructional team, and various grade level and content area leaders.

Mission, Vision, and Beliefs

Sterling School seeks to create an environment in which each student receives a personalized educational experience that allows them to explore their world, be enriched, and allow them to excel both academically and emotionally as they prepare for the next challenge they face at school and in life.

At Sterling, we believe a successful learner is not one "whose achievement is measured solely by academic tests" but rather as one "who is knowledgeable, emotionally and physically healthy, civically inspired, engaged in the arts, prepared for work and economic self-sufficiency, and ready for the world beyond formal schooling." (The Learning Compact, 2007, pg.4).

This effort is achieved through a whole child approach. The five tenets that encompass the framework are based on Abraham Maslow's Hierarchy of Needs. Maslow arranged his needs into a hierarchy to illustrate the foundational requirement of one need in order to successfully strive and obtain the next. Reflecting Maslow's hierarchy, ASCD's Whole Child tenets are arranged in a hierarchy: Healthy, Safe, Engaged, Supported, and Challenged. If the child is not healthy, then how can that child be expected to be engaged or challenged in classroom activities? If the child does not feel physically or emotionally safe, then how can that child truly be expected to think freely, collaborate with others, and explore their boundaries? While one tenet does not need to be perfected before working on the others, there is still an underlying understanding that an imperfect previous tenet will hamper further growth and progress.

We ensure the actualization of the tenets through a rigorous, inquiry-based curriculum that is data-informed and personalized to our students' varying needs. Our school is focused in providing tailored instruction through a framework of guided practice, project/inquiry based learning, and blended instruction (to support our school's 1:1 initiative). Teachers also receive training/support around best practices in social emotional learning: advisory for middle school, trauma-informed training/practice, and Positive Behavior Interventions & Supports (PBIS).

Our school strives to meet the current needs of students while successfully preparing students for life beyond high school. Implementing a whole child approach to education and ensuring that every child is safe, healthy, supported, engaged, and challenged must be more than rhetoric. Research and common

sense support the advancement of student's social, emotional, and academic development. Thus, bringing the vision of Whole Child into reality requires the active support of all stakeholders.
