

Welcome to the Stopfinder app!

The Stopfinder app displays your child's transportation information and also features push notifications and private messaging that will allow you to communicate directly with our transportation department.

To access your child's most up-to-date bus information, please follow these steps:

1. Download the FREE Stopfinder app from either the App Store or Google Play.
3. You will receive a personalized email on Thursday, Sept. 2nd with information and a password for the registration process, which will allow you to access your child's transportation schedule. The email will come from **noreply@stopfinder.com**.
4. Please use your email address that is currently in the Genesis parent portal for the Stopfinder setup.
5. Your child's bus information will be shared only with you, the registered user, unless you choose to share it with other family members.

Click on the icon to view a brief tutorial on how to use the Stopfinder app.
