

# Strategic Planning Process

Creston School District is beginning work on a strategic planning process that will help chart the district's course for the next 3-5 years. Through the strategic planning process, we will carefully review the district's mission and vision statements and core belief statements. We will gather data through a comprehensive needs assessment and use that data to establish goals with an action plan to achieve those goals. We will also work on a graduate profile which will include the competencies we want all students to have when they leave Creston School after 6<sup>th</sup> grade.

Your feedback will be very important during this process. Please watch for a needs assessment survey in November. Completing the survey will provide the planning committee with necessary data that will assist us in establishing the goals. You will also receive notice of the open planning meetings.

We look forward to working together throughout this process.
