Rockin' Behavior:)

Written by: Monica Casto

Are your kids good at school? Well some are and some are not. Rockin' Behavior is a guitar with seven different colors; pink, purple, blue, green, yellow, orange, and red. Some of those colors are good! But blue, purple, and pink are bad colors. Pink you go to the principal and parents gets called. With purple, the parents get a phone call.

Blue is just a warning. On green you earn a \$1, yellow you get \$2, orange you get \$3, and red you get \$4. Well, hope your kids are good at home and at school!!!!

Luke Ledbetter was the first person to get to red, so he got 4\$!!!!
GOOD JOB LUKE!!!!!!!!!!

Our new principal Mr. Brown

written by: Sara Springman

This year we have a new principal. His name is Mr. Brown. He is a really great principal so far. He is tall (6ft 2in). He said that he is going to make some changes to the school, like wanting the students to learn a lot more and be a lot better than ever. He wants most of the things to stay the same, like the dress code and other codes. I

was talking to him and he told me interesting stuff. He said his favorite color was green. He doesn't really have a favorite number though. He has 3 children. He said that he likes odd numbers better than even numbers. He wants to welcome others to our school, because he wants more classes, so

our school can grow bigger. He is fine with us having lockers. Mr. Brown would rather be at elementary than High School. He likes being a principal.

Welcome Mr. Brown! :}

Writer's notebooks designs

Written by: Makayla Burris

If you like writing and art, then you'll probably be interested in what we are doing in class!! In art class, we are decorating the front cover of our spiral writing notebooks. We are decorating are journals

so if we ever don't know what to write about, we can look at our journals to help us come up with something to write. I think that decorating our journals is a great idea and will help us come up with

stuff to write about and look really good!!!!!!!!!!!!!!!!!!!!!!

Bullying

Written by: Alexis Schliesman

Are you a bully? If you see a person being bullied, then you should speak up!! We are reading a book about three blind men that have a fight about what an elephant looks like. They should have solved their problems by talking it

over, instead of fighting. Bullying is the wrong thing to do!!! People should not fight and argue. You should work it out or walk away. People have many opinions but that doesn't mean you should bully!!!!!! =]

Words From Mrs. Clark

What we are working on:

Math: Multiplication

Keep working on your times tables with flash cards.

Reading: Types of Conflict and Theme

Writing: Complete Sentences

Social Studies: Native Americans of North America

Science: Matter, Mass, Volume

Coming Soon:

Native American Project
